1984 CHRONICLE

a register of events in the order of time.

To us, our yearbook . . .

SOUTHINGTON HIGH SCHOOL SOUTHINGTON, CONNECTICUT

TIME . . .

a definite portion of duration; a moment; period; season;

Soon we will be leaving what was a very important part of our lives — SHS. Our thoughts will focus on many things including the playing fields, hallways, and classrooms, the teachers that guided us and most importantly, the strong friendships we formed. Hopefully, we will carry with us the memories of the good times spent here.

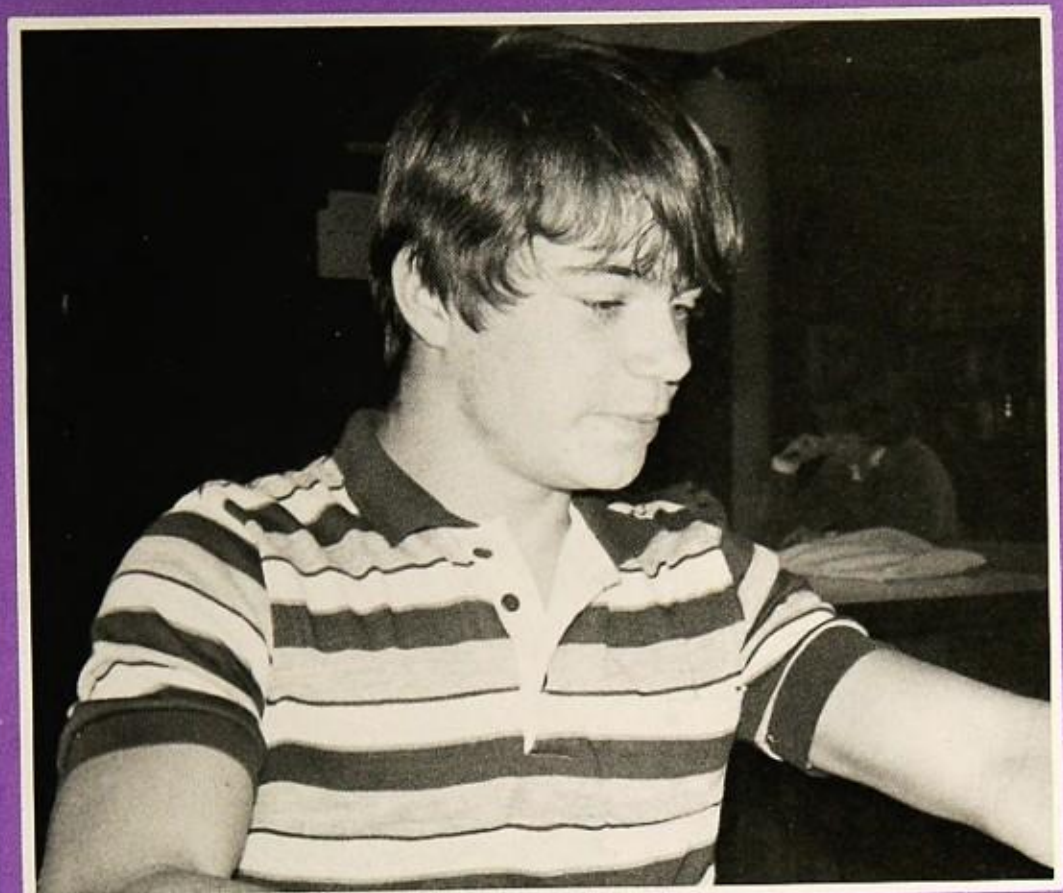
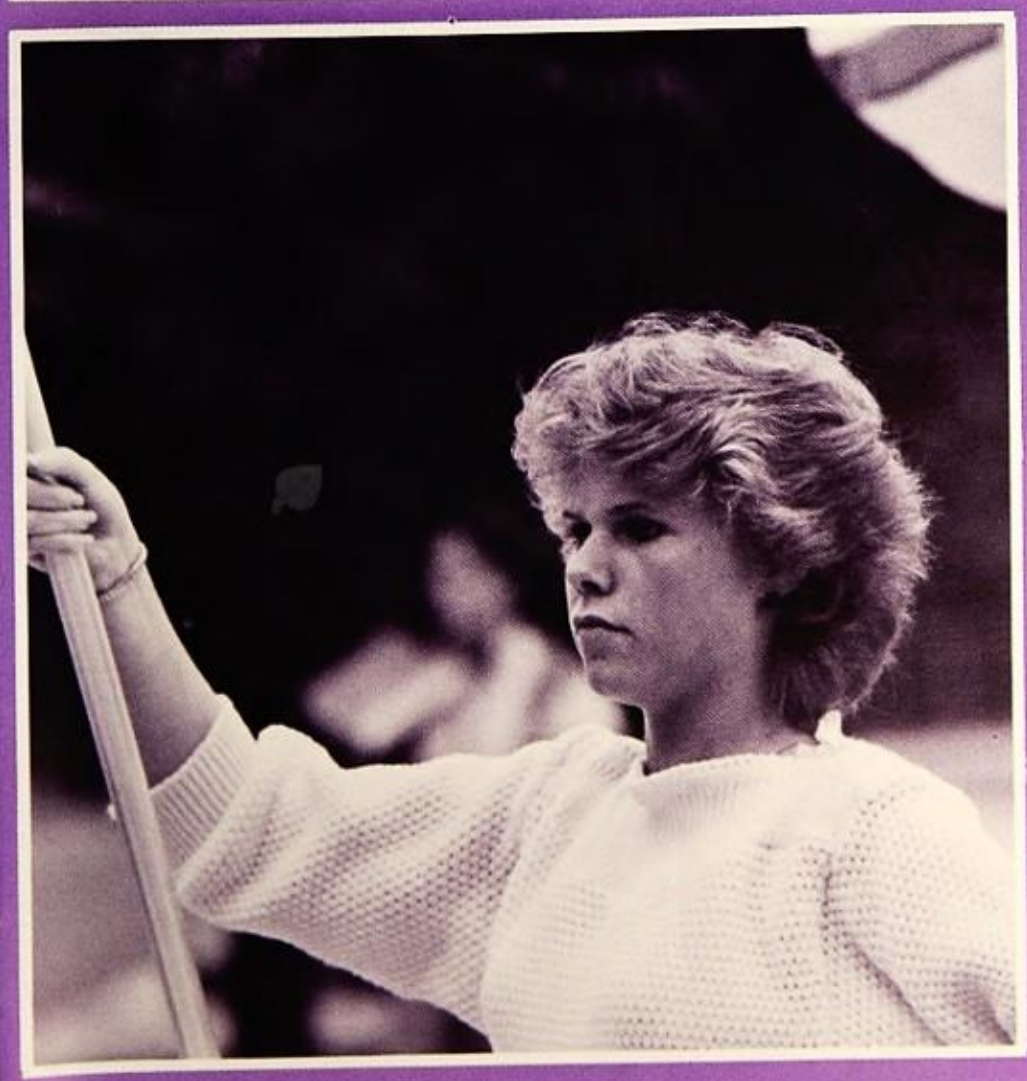
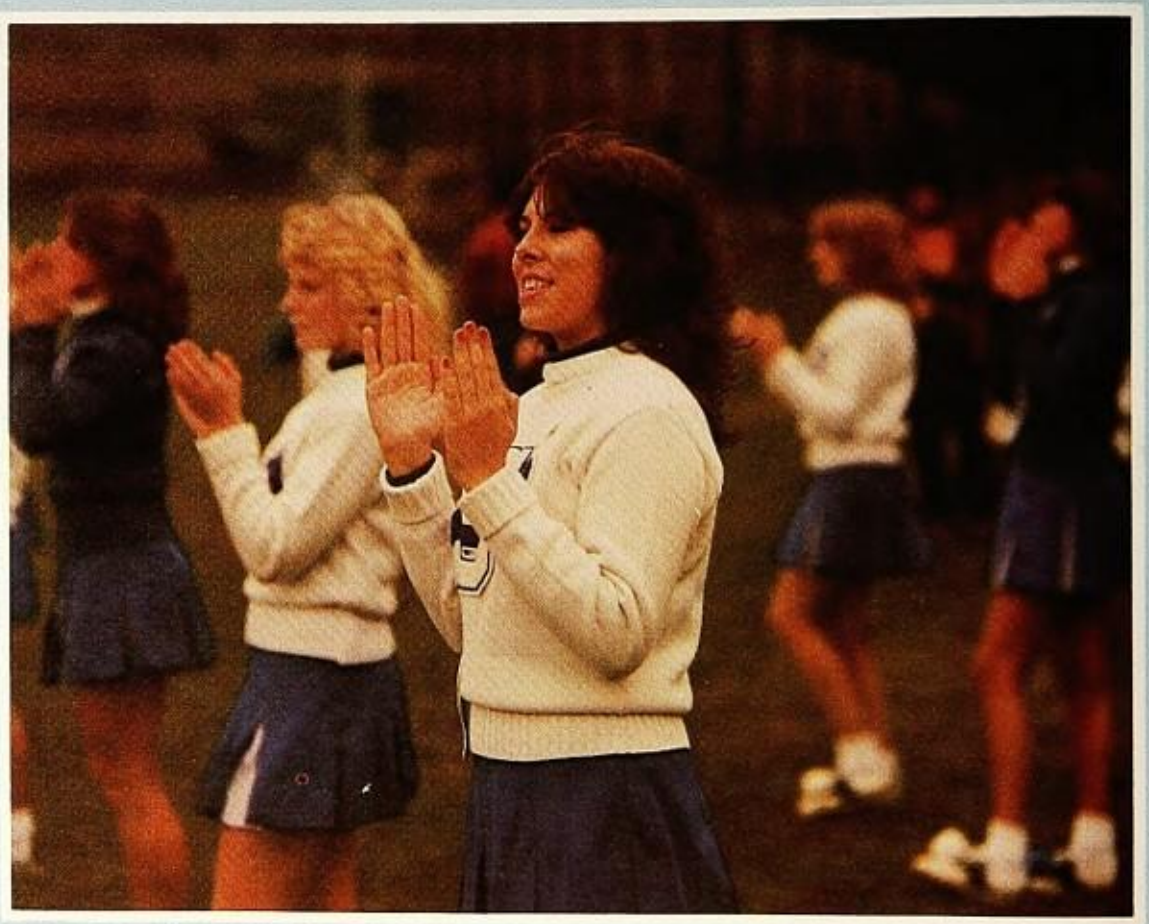
local TIME. . . .

Time as reckoned locally, in town or in school doing work.

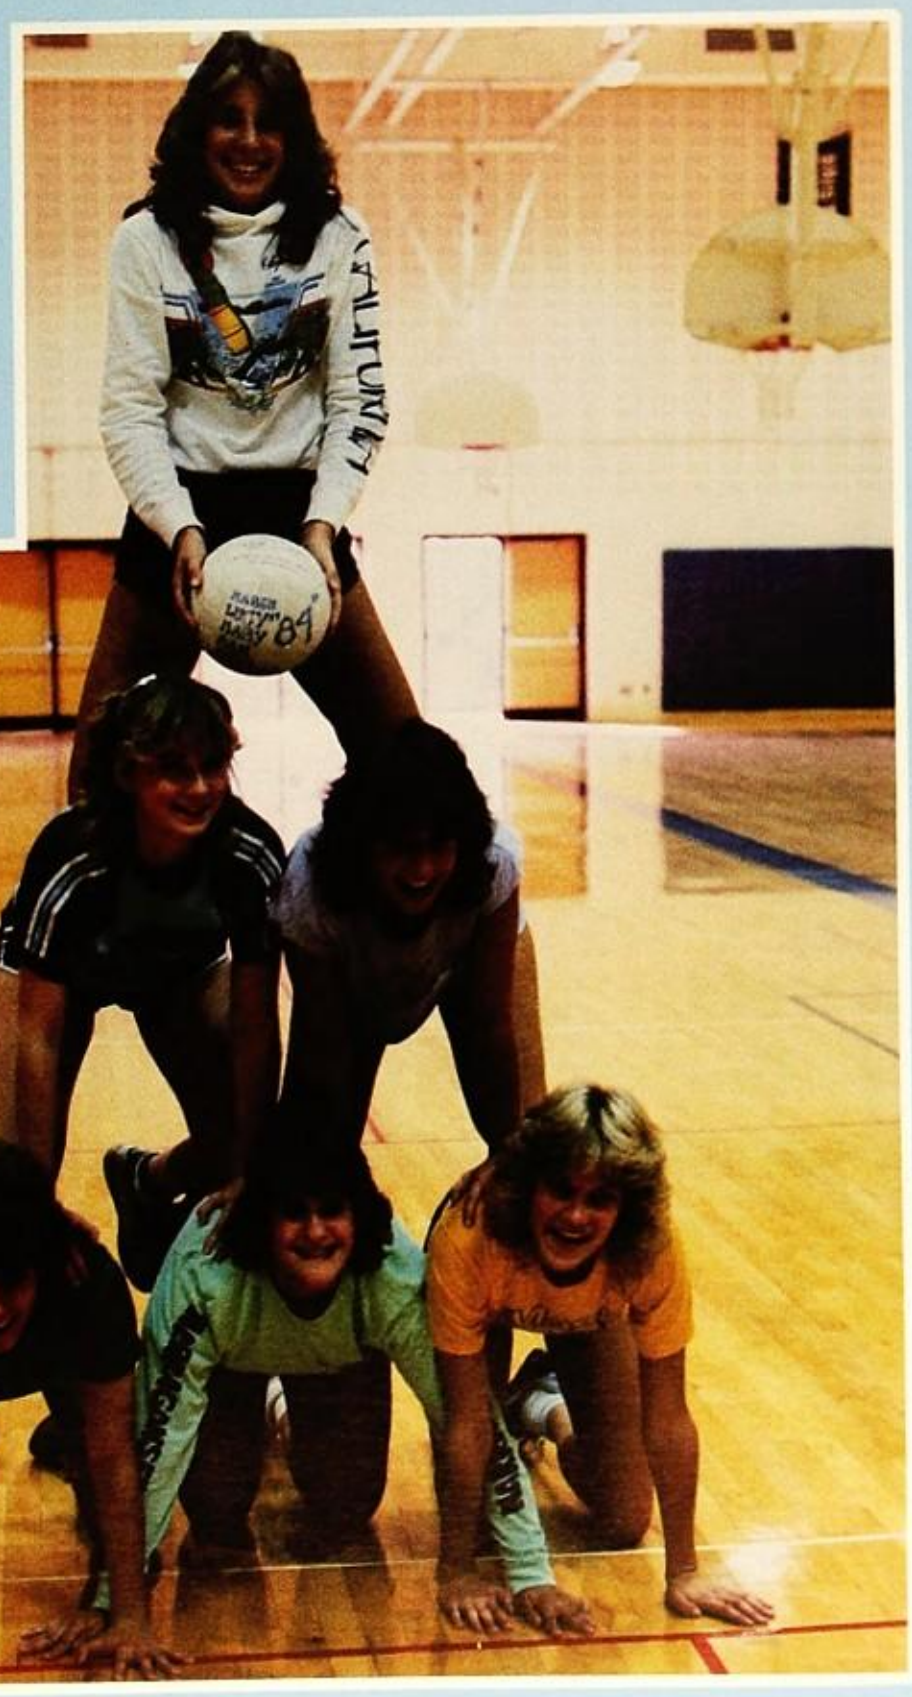
There is a time for work and a time for play. The Class of 1984 certainly spent their share of time working. Whether it was in school completing homework or practicing for a team or out of school holding a part-time job our class kept very busy.







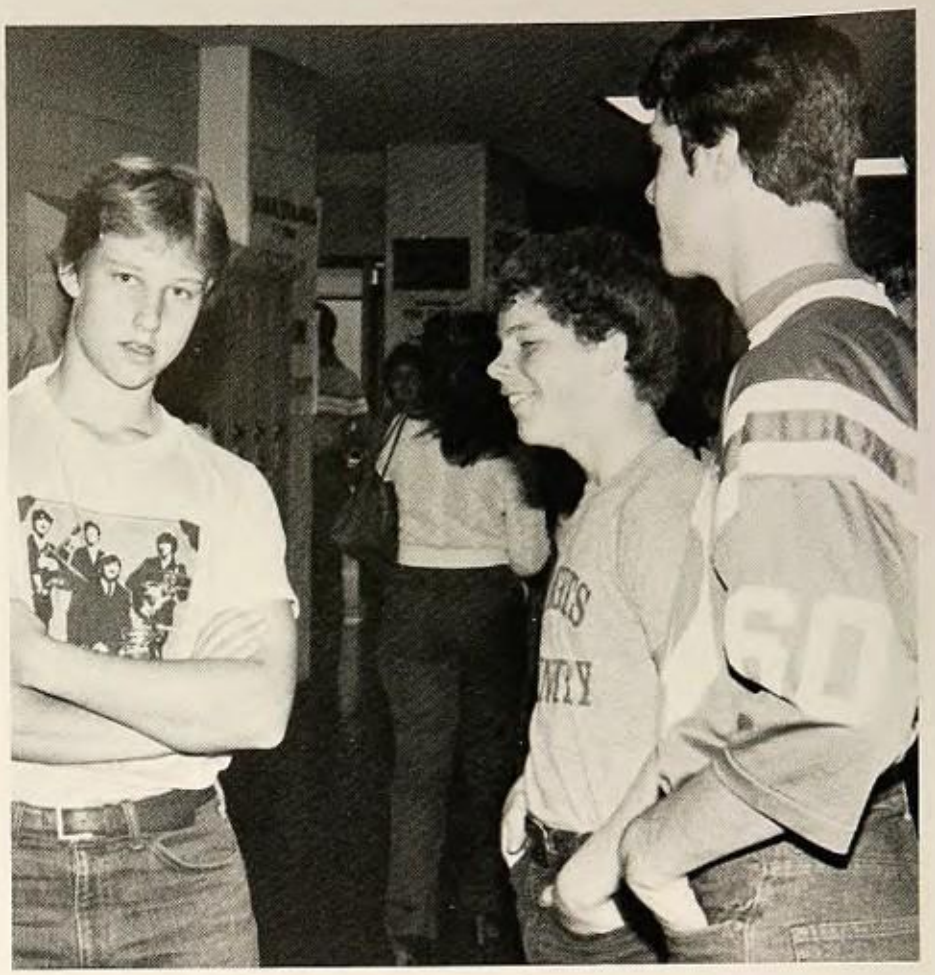
8419841984198419841984198419841984198419841984198419

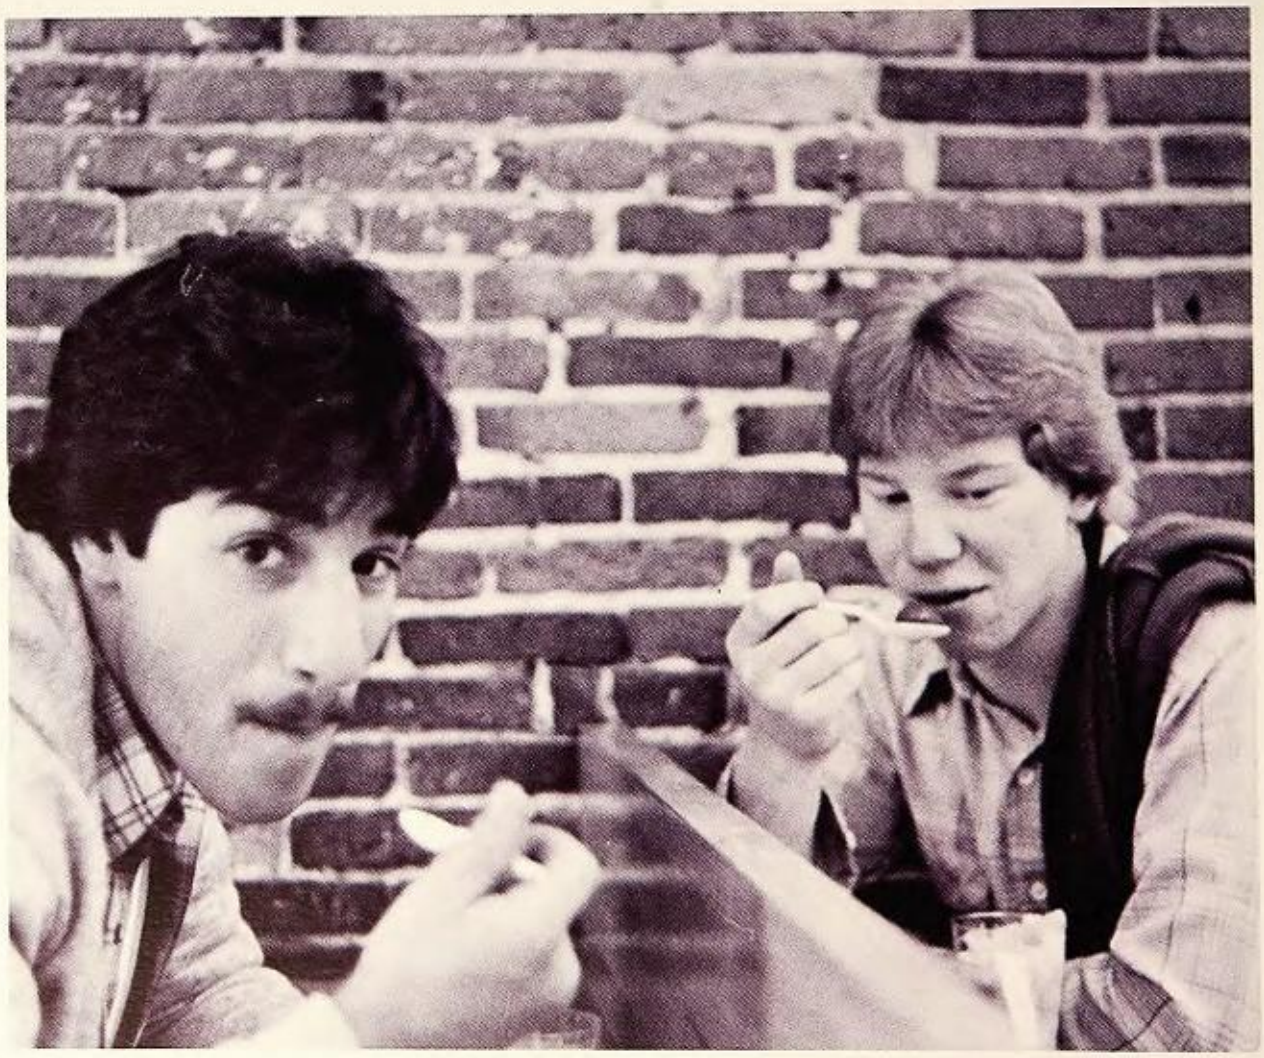


TIME out. . .

any interval of rest taken during the course of a regular period of work.

This is the time when we chose to break away from the usual routine, to do something special, exciting, fun, different. A time out might have been for cheering for our favorite Blue Knight team, for performing at our best, or for receiving recognition for a job well done.



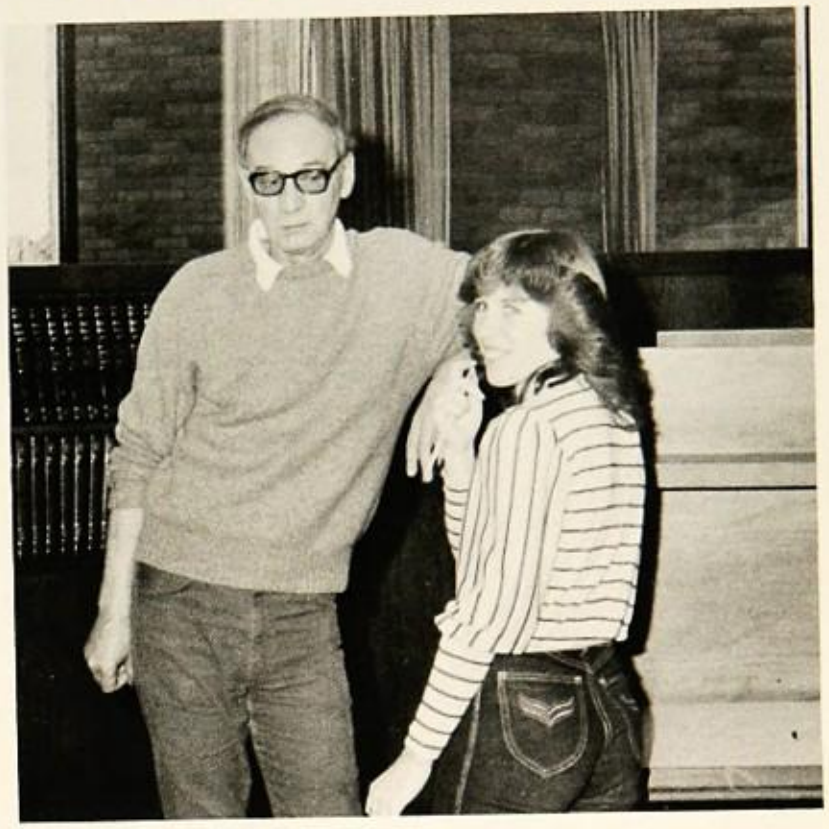


9841984198419841984198419841984198419841984198419841984198419841984198419841984198419841984198419841984198419841984198419841984198

TIME and again . . .

frequently; those chores repeated daily.

Routine is a part of our lives at SHS — it's unavoidable. Some things — eating, studying, talking — are predictable and unchanging yet always a new experience.



wild TIME . . .

an intensely gratifying and exciting portion of duration.

While at SHS, we shared many wild times together participating in class activities such as, car washes, shows, and dances. Other fun times came when the weekend began and we went to the movies, drive-ins, and rock concerts.

candids taken at spaced intervals.

These are times when the unexpected and the extraordinary seem to prevail. This is the time when the candid camera seems to magically appear — catching us without our knowledge or our consent.

high TIME. . .

a period of time when feelings of spirit and enthusiasm are at their peak.

When the spirit is high and the air is electric, we focus our energies in sounds of cheer and roars of applause. The pep rally spirit is carried into the halls and onto the fields acknowledging the enthusiasm of us, the students at SHS.

our class advisers, Mrs. Ann Sciota and Miss Debbe
njamin:
We, the class of 1984, thank you for all the times-of
couragement, of patience, of guidance, of support and of
endship.
Your help, along with your smiles, was always appreciated
d will never be forgotten.

Much love,
The Senior Class of 1984

Administration

How many times have you had to sit in the main office waiting to see an administrator? We often wonder just what it is that the administrators do. Well, for one thing they explain and enforce the rules and regulations that are important for us to follow. Without the administrators to keep SHS organized and running smoothly, the school would be in chaos. They are what hold the school together.

Although we sometimes see the administrators as working against us, we, the students, are their top priority. We should appreciate them, for they are working together for all of us.

Staff and Special Services

What would we do without the cafeteria staff who fulfill us with the nourishment we need throughout the day? Or the secretaries who keep us organized, the aides who give extra time for those who need extra help, and the custodians who keep our school looking its best? Although we may take them for granted, they are very important to our school system.

A description of all of these people is very easy — special. All of their time is devoted to making us the best we can be ..... discovering our talents, aiding us in research and in health, lending a hand whenever it is needed.

Guidance

There aren't enough minutes in an hour to count how long you've had to wait in the guidance office to talk to your counselor. But all that waiting pays off in the long run. Your counselor is there for you-listening to your problems, trying to decide the right course for you, and also helping you look for a good college. All in all, they guide you and help you to prepare for anything that the future may bring.

Our high school lives have been for the most part a very strict routine. We attended class from 7:50-2:05 for 180 days, excluding absenses. This tallies to 67,500 minutes per school year. Much time is spent driving to school or riding the bus. Depending where you live it would take between 5 min. - 15 min. to get to school which would be between 1800 and 5400 minutes a school year. In between classes we have 4 minutes, which totals 5040 minutes a school year.

Art

How many times had you ever been down to the bottom level of the building where the I.A. and art classrooms were located? If by chance you had an art class or passed by one, you were sure to see students busy at work.

This past year we had three teachers in the department- Mr. Grimaldi, the chairman, Mr. Pendell and Mr. Wisner, who taught a variety of courses which included Basic Design and media, Drawing Fundamentals, Painting, Drawing, and the advanced level of the latter two courses, Fabric crafts, Pottery Crafts, Advertising and Commercial Design, and Photography.

The baseball team lost?!

I could have had a V-8!

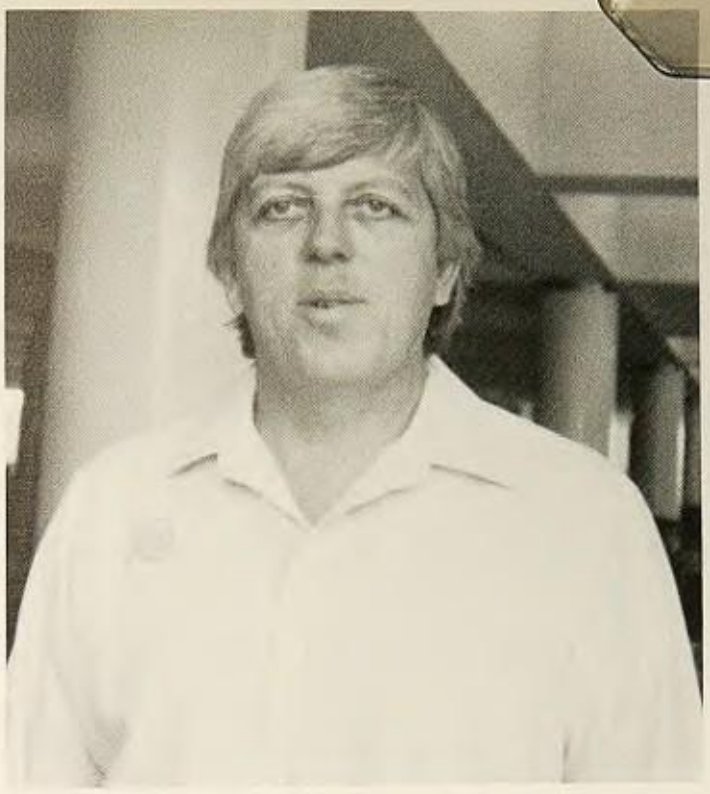
Wow! This month's profit on overdue books is higher than ever!

"I will not sign this contract releasing my trail mix to you!!!"

What do you want now?

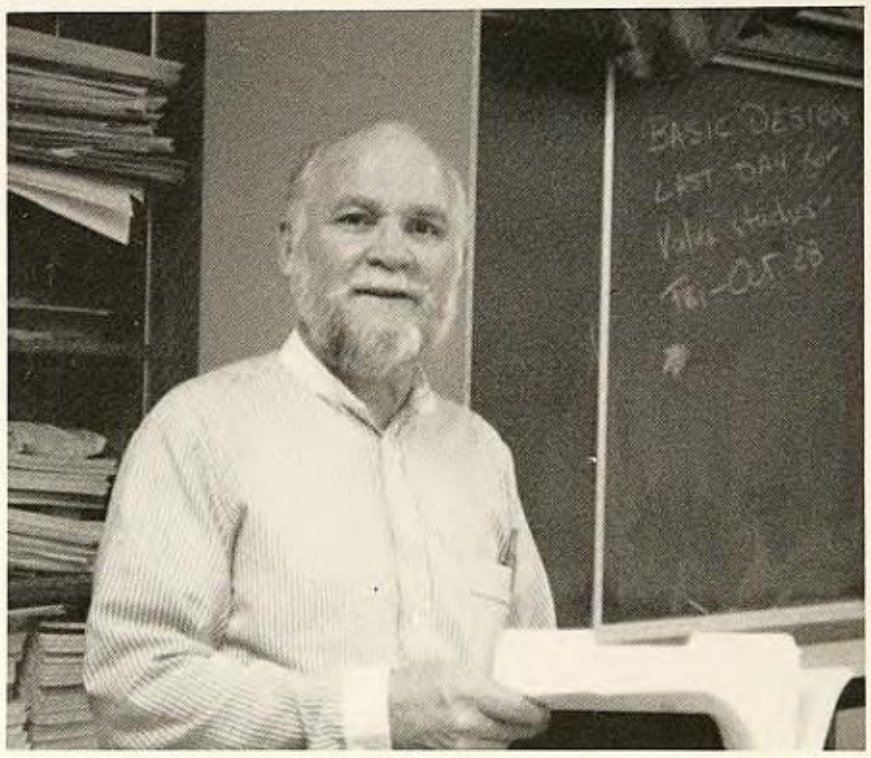
Tell me you didn't smash the new driver ed. car!

The typewriter is broken . . . No, that's not funny.

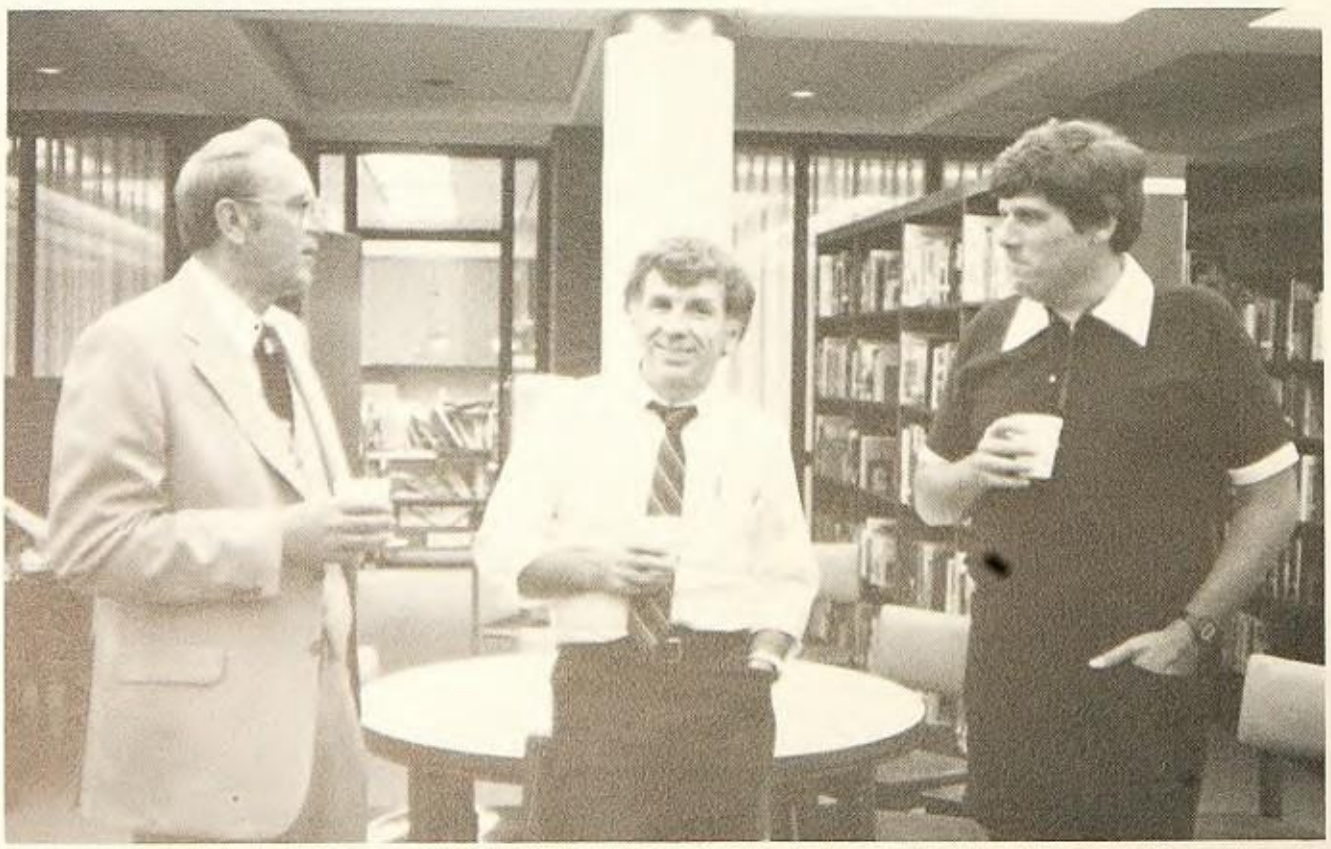


Must have been the school lunch.

Yes . . . Art students can read.



C'mon people — finish your fish.



Who's buying the next round?

Eight to Ten seniors, instructed and advised by Mr. Grimaldi and Mr. Pendell worked on the Senior Mural. They had 35 feet of wall to work with. The students designed their layout on paper first, had it approved by the administration and then painted the wall.

Andrea Testa, Alan Petruska and Melissa Florian were among the art students to be named art student of the month. One student was chosen per month on the basis of their portfolio. They had to mat all their work and create their own display at the Southington Savings Bank. This was the beginning of a new, unique program.

Time spent in any course in art such as Advanced Painting: 73.5 hours or 4,410 minutes!!! plus any time spent by the student on their own such as the Senior Mural.

Business

The business department offers a wide range of sourses in different business areas. Some course offerings include accounting, typing, business communications, business law, data processing, office machines, business, mathematics, economics, and speedwriting.

The business department also has a Cooperative Work Experience Program offered only to seniors. This program is for students who wish to pursue a career in the business field. It teaches students to use office machines and also gives them experience in a part-time office position.

It is evident that business courses not only involve learning, but valuable practical experience as well.

Time spent in a full year course such as Advanced Accounting: 126 hours or 7560 minutes!!!

Time spent in a half year course such as Business Law: 73.5 hours or 4,4140 minutes!!!

Foreign Languages

The Foreign Language Department, under the direction of Mrs. Orsene, offers courses in five foreign languages including French, Spanish, German, Italian, and Latin. In addition, a course entitled An Introduction to Western Cultures is offered to any student interested in learning about Western Civilizations. Students can learn outside of the classroom, also, The language lab, located in the library, is a place to play foreign card and board games, read a magazine, or listen to a tape. The department sponsors an Antique Flea Market each Fall, which is quite successful. Proceeds are used to give a scholarship in each language to deserving seniors.

Approximate time spent in a language course: 7560 minutes or 126 hours!!!

English

The English department, under the direction of Mrs. Wallace, is one of Southington High School's diversified areas. It is subdivided into five major groups, honors, academic, standard, general and personal, in order to adequately cover the different academic levels of all students. The course offerings consist of twenty-two subjects. There are many different grammar and literature courses offered. Some other courses include Communications, Humanities, Introduction to the Dramatic Arts, Journalism, Logic, Public Speaking, Shakespeare, and Speed Reading. An addition to the English Department is the Writing Lab. This is open to all students having difficulties in writing assignments. This has proved to be a great success.

Approximate time spent in an English Course: full year: 7560 minutes or 126 hours!!! half year: 4410 minutes or 73 hours!!!

I thought it was a sophomore.

You printed *what* in the Emblem?

Oh! No! They're rioting!

Home Economics

Under the direction of Mrs. Hallett, the Home Economics Department has grown into a very successful unit of teachers. In Home Economics One, students become acquainted with all areas in Home Economics. Child Growth and Development offers a comprehensive study of the physical, emotional, and intellectual growth and development of the child from conception to age five. One of the more popular courses offered is Food Service. This course provides students with training in fundamental food preparation skills, knowledge and attitudes to qualify them for beginning levels of employment.

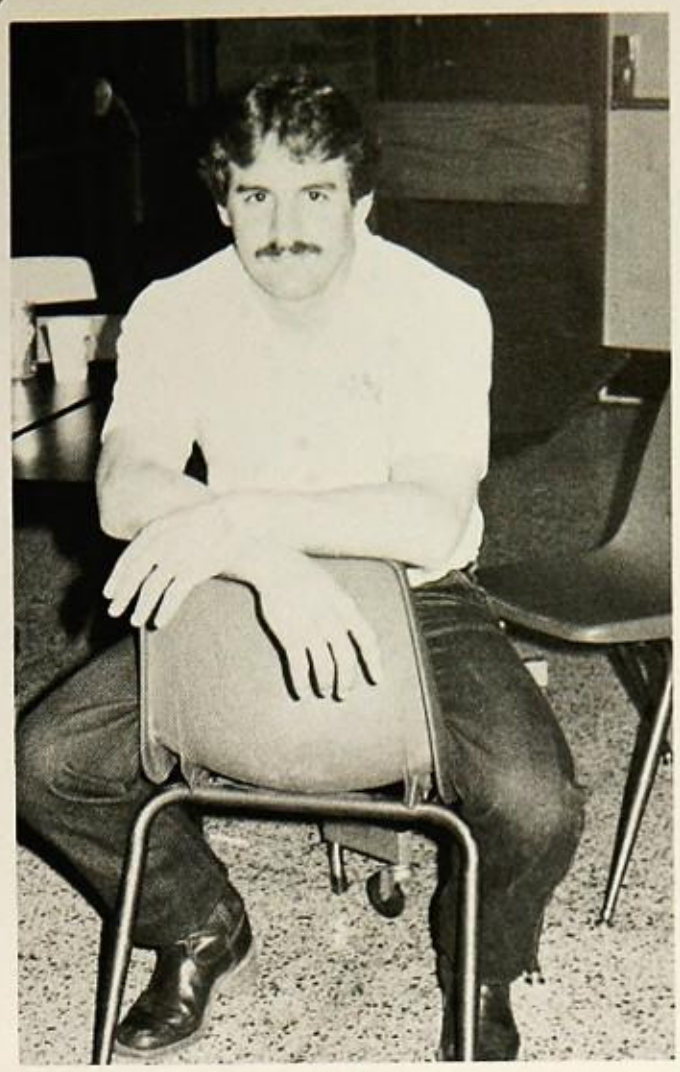
Approximate time spent sewing: 105 Hours — 6,300 minutes!!!

Industrial Arts

On the first floor of Southington High School is the Industrial Arts Department, under the direction of Mr. Germano. There are twenty courses offered in a range of six areas: Electricity/Electronics, Graphic Arts, Mechanical Drawing, Metal Working, Power Mechanics/Basic Automotive, and Wood Working. Ten male teachers make up the Industrial Arts staff. The 1983-84 school year there were 1276 enrollments in Industrial Arts courses. All of these courses are electives. 91% of those enrolled were males whereas only 9% were females. One goal of the Department is to encourage more females to participate in Industrial Arts.

Industrial Arts is generally activity orientated. On the average four out of five days are spent doing hands on work. A students abstract knowledge from his academic courses is put to practical use in his Industrial Arts courses. Should a student choose to pursue a career in an industrial field his courses at Southington High School would prove to be a good background.

Approximate time spent doing hands on work. 91 hours or 5,460 mintues!!!



Cafeteria Etiquette 101

"That's supposed to be meatloaf?"

Math

The Math Department, headed by Mrs. Zobbi, consists of a vast range of courses in order to efficiently suit the individual needs of the students. Basic mathematical principles to algebra and trigonometry to computer math, all the way up to advanced placement calculus are but a few of the many courses offered. In addition to this, there is a Math Club, advised by Mr. Venbles, for students who are exceptional in the math field.

Approximate time spent doing homework each week: 10 hours or 600 minutes!!!

Music

There are two musical departments at the high school. Students can participate in the Instrumental Music Program, under the direction of Mr. Keith Berry. The Marching Band consists of silks, majorettes, rifles and of course the instrumentalists. This group rose from Orlando Fla. Festival of Music (fifth place) to first place in Groton Ct. while competing in field shows. Parades and football games are also in their curriculum. Concert band, another musical group, rehearses daily for concerts throughout the year. Everyone must audition for their placement in the band. The music ranges from contemporary to classical to popular. Stage Band and Ensembles are two more groups. Stage Band meets one night a week. One must audition for this, for which they perform at civic functions, concerts and the Hartt Jazz Band Festival in the spring. Ensembles is offered during the school day.

The other department is the Vocal Music Program under the direction of Mrs. Sileo. Concert Choir, which rehearses once a day, sings classical and pop music. One must audition for this group, for it is more difficult than the other groups. Mixed Chorus, which is a larger group, rehearses once a day. They sing a variety of music, but not as classical. Barber-

"I can't believe you're gonna eat that!!!"

Cheers Mr. Pre-Calculus!!

"See what I have to put up with!!"

"That's right, Lucky in the fifth ....."

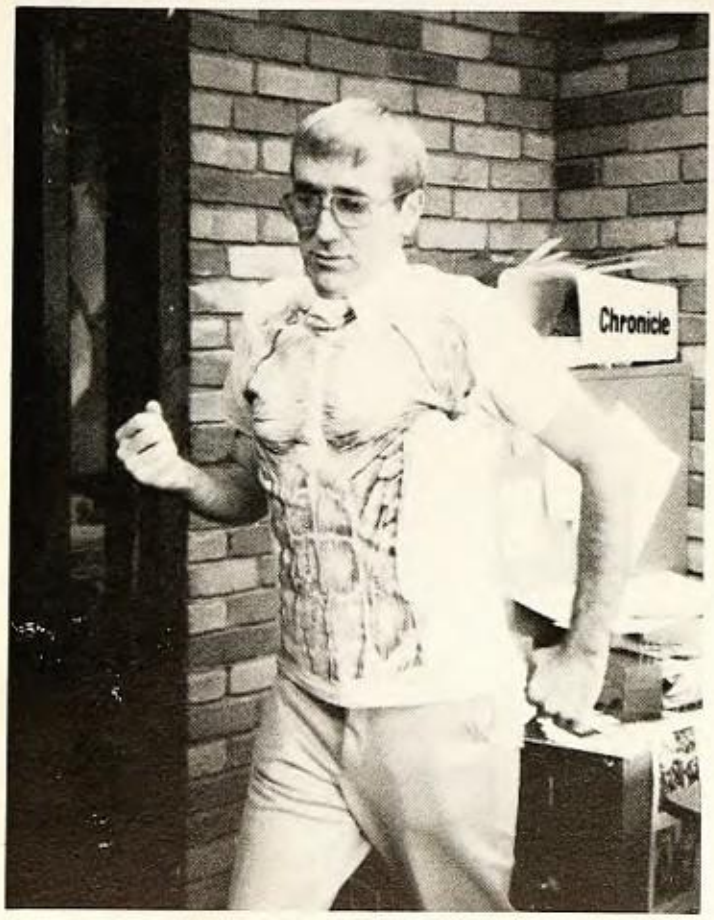
"Who should we kick out next?"

"Not another syntax error!!!"



1984 Mr. Muscle!!!

"What's wrong with this sweater?"

"The frogs got loose??"

shop is a group consisting of all boys, who rehearse after school. All of these groups sing at the Christmas Concert, Pop Concert and various other functions.

Approximate time spent in three short months of marching band: 171 hours or 10,260 minutes — almost twice the time of Concert Band!!!!

Physical Education

Coach Nak, Orsene, Sepko, Leahy, Busa, Riccio . . . sound familiar?? These are our phys. ed. teachers, in simpler terms — "gym" teachers. They help us to become more athletically inclined. Seniors, Juniors, and Sophomores, each have gym once every three days. There are a variety of activities one can participate in, each depending upon the grade level. The Seniors have special privileges — they are able to choose exactly what they want to do. Their choices are most exciting including archery, golf, and aerobic dance!!! But there are still some students who dislike this physical endurance. So if you hear someone in the hall say, "Oh no, it isn't junior gym day today is it?", encourage him to enjoy it. It can only be beneficial in the long run.

Approximate time spent in gym each year: 61 times: 2,440 minutes or 40 hours and 40 minutes!!

Science

As most of us may know, Mr. Robert DeBishop is the head of the Science Department. He is well known for his expertise in Anatomy and Physiology and believe it or not, knows much more!

Southington High School has a great science department. Just by knowing Mr. DeBishop, one can understand the type of people working under his guidance. The Science teachers are well educated in their fields. There are a great many courses offered to us today for whatever interests we may have. Anatomy and Physiology (By Evans), Chemistry, Physics, Botany, Entomology, Meteorology, and Biology are some of the subjects offered for science orientated people. With this variety of courses, students may go in many different directions in science.

Approximate time spent in science: 7560 minutes or 126 hours!!!

Social Studies

The Social Studies Department, under the direction of Mrs. Audrey Zack, offers a wide range of courses. These include Geography, Connecticut History, U.S. History, Politics and Government, Modern China, Psychology, Sociology, Contemporary Issues, and International Relations. Whether you are interested in probing the mysteries of the mind, learning about current events or the ancient past, the Social Studies Department offers a course to interest you. All of these courses will enhance your knowledge of what is going on today in the world around you.

Time spent ..... in a half year course of Psychology or Sociology: 73.5 hours or 4,410 minutes!!

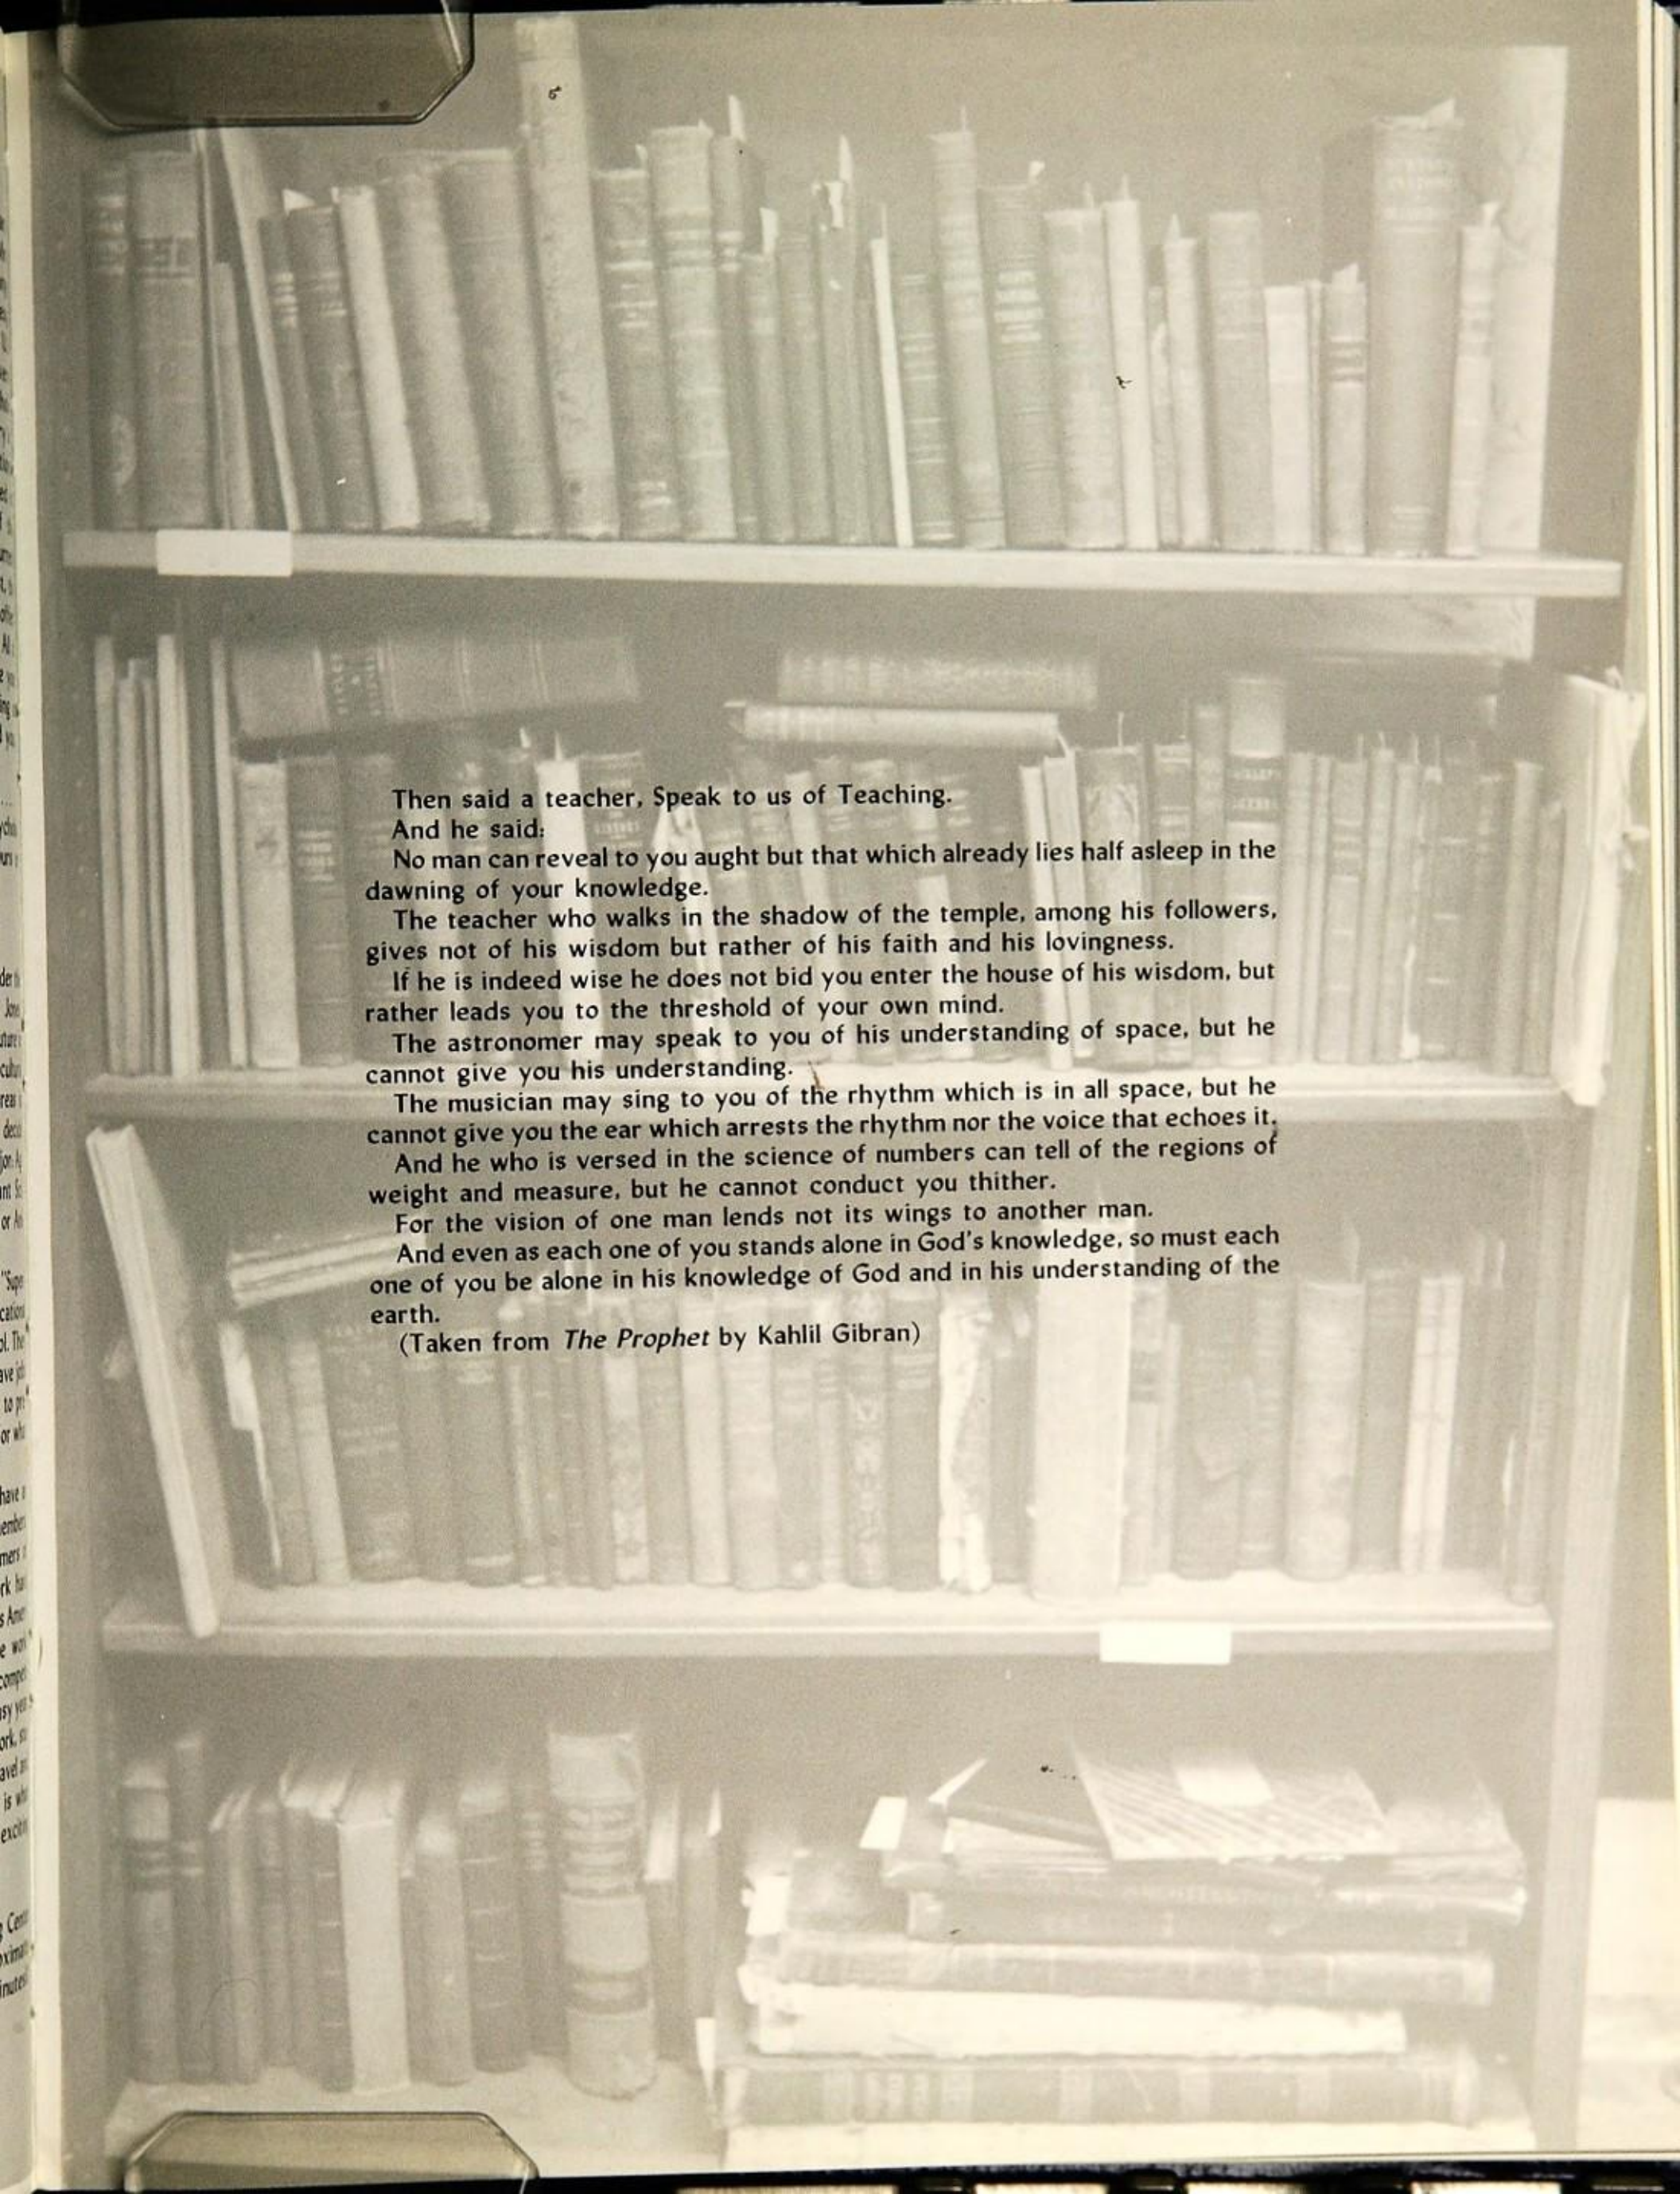
Vocational Agriculture

The Vo-Ag program, under the direction of Mr. Richard Jones, prepares students for a future in farming and related agricultural fields. There are four areas in which each student may decide to choose for his/her major: Agricultural Mechanics, Plant Science, Natural Resources or Animal Science.

Each student has a "Supervised Occupational Educational Project" outside of school. They are placed on farms or have jobs related to their interest to prepare and educate them for what lies ahead.

Agricultural students have an opportunity to be FFA members. FFA is the "Future Farmers of America." Members work hard all year to do their best as American farmers. They have workshops, conventions, and competitions throughout their busy year. But along with all the work, students get a chance to travel and meet new friends. This is what makes Vo-Ag a fun and exciting experience.

Time spent at the Vo-Ag Center two periods a day: Approximately 360 hours or 21,600 minutes!!!



Then said a teacher, Speak to us of Teaching.

And he said:

No man can reveal to you aught but that which already lies half asleep in the dawning of your knowledge.

The teacher who walks in the shadow of the temple, among his followers, gives not of his wisdom but rather of his faith and his lovingness.

If he is indeed wise he does not bid you enter the house of his wisdom, but rather leads you to the threshold of your own mind.

The astronomer may speak to you of his understanding of space, but he cannot give you his understanding.

The musician may sing to you of the rhythm which is in all space, but he cannot give you the ear which arrests the rhythm nor the voice that echoes it.

And he who is versed in the science of numbers can tell of the regions of weight and measure, but he cannot conduct you thither.

For the vision of one man lends not its wings to another man.

And even as each one of you stands alone in God's knowledge, so must each one of you be alone in his knowledge of God and in his understanding of the earth.

OFFICERS

The officers worked closely together to make our class the best it can be.

Past Officers: Sophomore year; President-Liz Braun, Vice President-Jen Wrinn, Secretary-Dina Fernandes, Treasurers-Maria Manware, Karen Sperlazza.

The officers for the Junior and Senior years of the Class of 1984 were: President-Jen Wrinn, Vice President-Mike Lorenzo, Secretary-Cheryl Scollo, Recording Secretary-Sheryl D'Onofrio, Treasurers-Maria Manware and Karen Sperlazza. This dedicated group set the pace for the numerous activities the Class of '84 sponsored. The trememdous work which they did helped to make the Class of '84 the best!

As treasurer, Karen is always raising $$ for the class.

Washing his troubles away!

Sheryl is always there with a smile working hard for our class.

PRESIDENT

Let us entertain You!

Shower to shower each day .....

Slip slidin away ....

Jen is always wrapped up in her work!!

And now .... a word from President Wrinn.

We, the Class of 1984, came to Southington High School from diverse backgrounds and several different junior high schools. However, we have one thing in common. We have united and worked together toward many common goals. In the classroom, on the playing field, and through other activities, we have shared in the common experience of participating in student life.

Soon we will go in our separate directions. The memories made at Southington High School will remain forever. As the President of the Class of 1984, I wish you good fortune and success in all of your future endeavors.

Love Always,

Jennifer Wrinn

ADVISER

How much money did we lose?

I don't know about you guys

Who said I couldn't do it alone!

The Sciota's .... They made our class what it is today.

A WORD FROM YOUR ADVISER:

Your high school life is about to come to a close. There is always an undertone of sadness about the arrival of High School Commencement when some will detach themselves, with regret, from a portion of the past. Even though you have experienced some disappointments, discouragements, and trials, you also enjoyed many pleasures and have formed many friendships. And, in your activities, you have grown accustomed to a routine which was established in your Sophomore year.

While your paths may sever the friendships formed, it is my hope that such will be only temporary that the members of the class of '84 will plan for many reunions to keep alive the splendid spirit I so truly love.

Congratulations to all, and may the members of the class of '84 receive from the greatest teacher of all His blessings for a healthy, successful and happy future.

Love You,

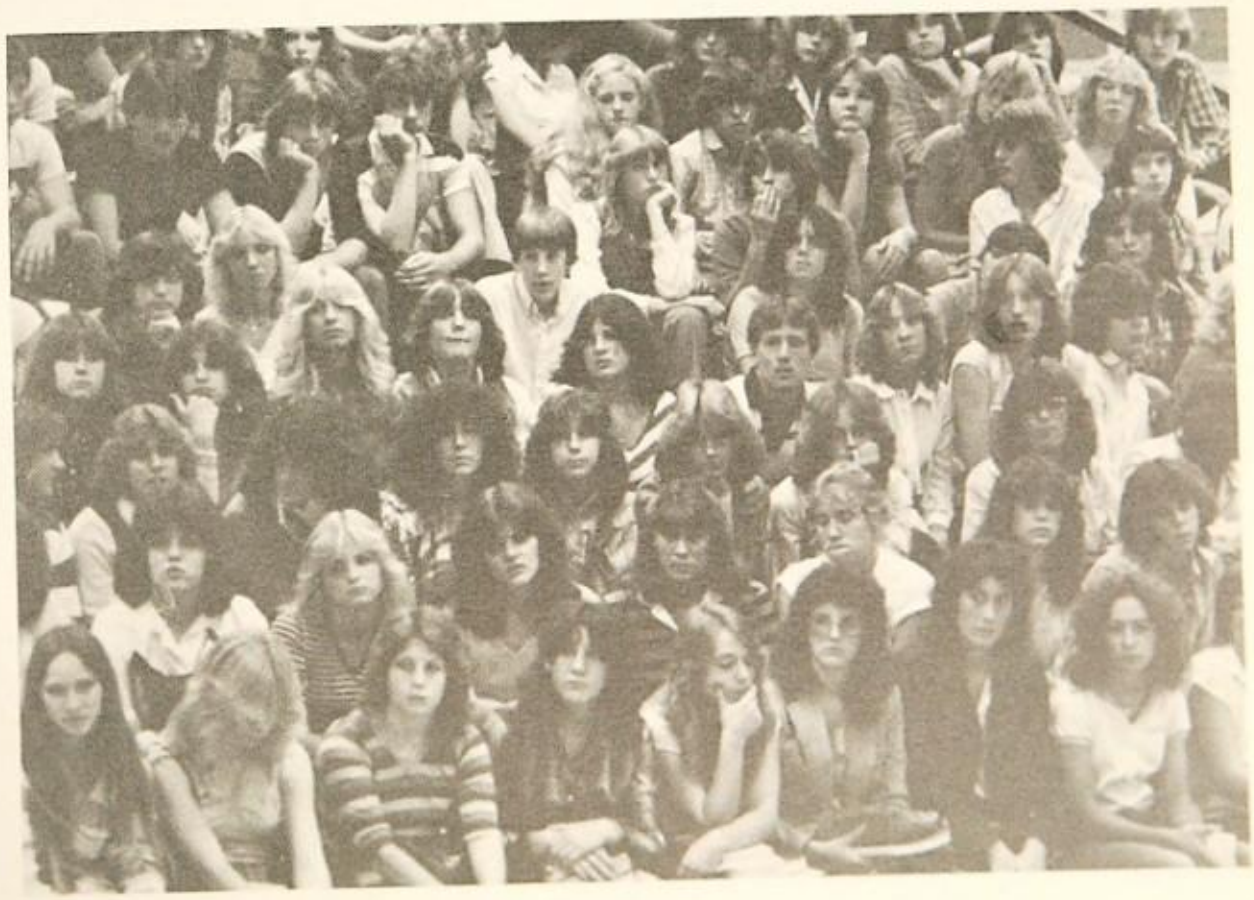
Ann Sciota

MAGAZINE DRIVE

Perfect School Clan.

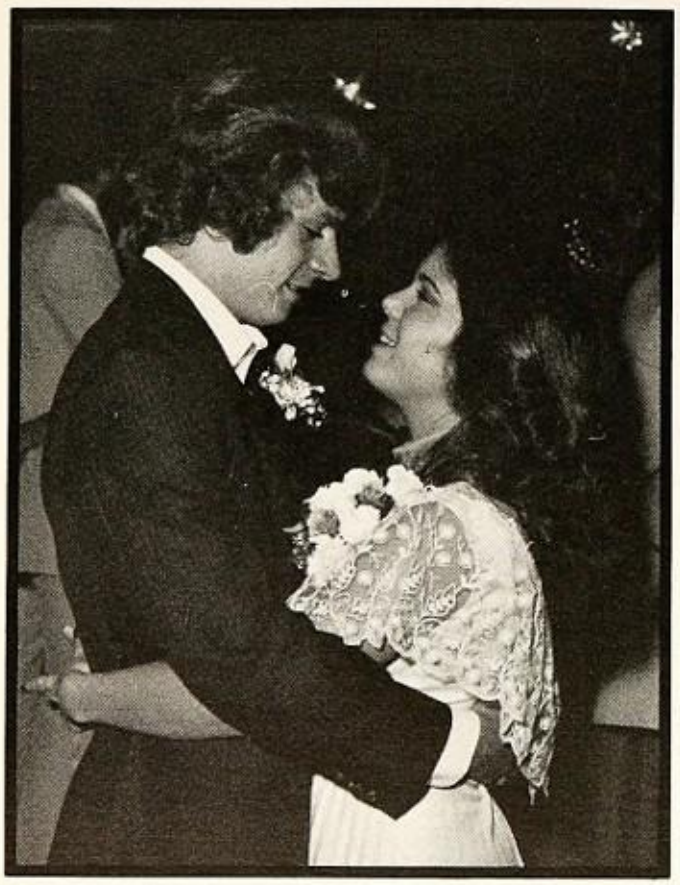
The Magazine Drive was the first major fundraising event our class held as Sophomores. Even back then we were a class with lots of desire and determination to reach the goals that we set. Our efforts and hard work paid off when our class collected the profits.

Looks good to me.

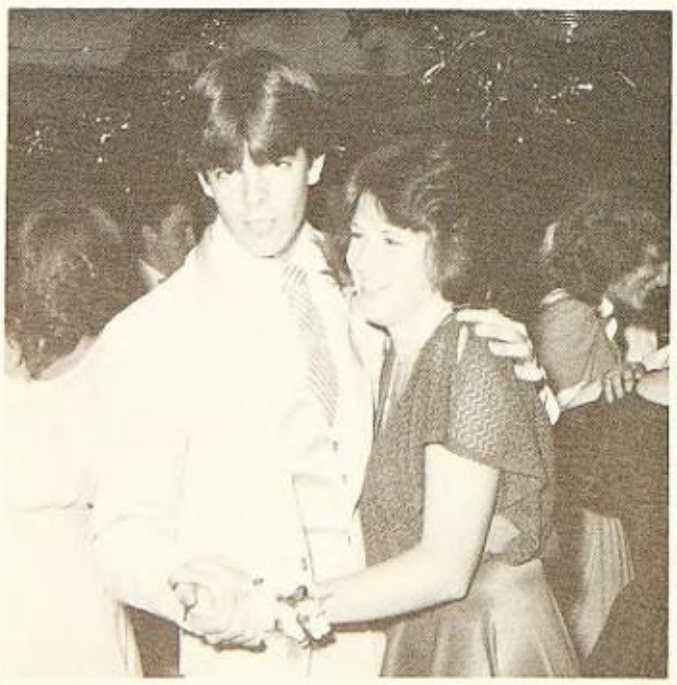


We can't handle the excitement!

JUNIOR

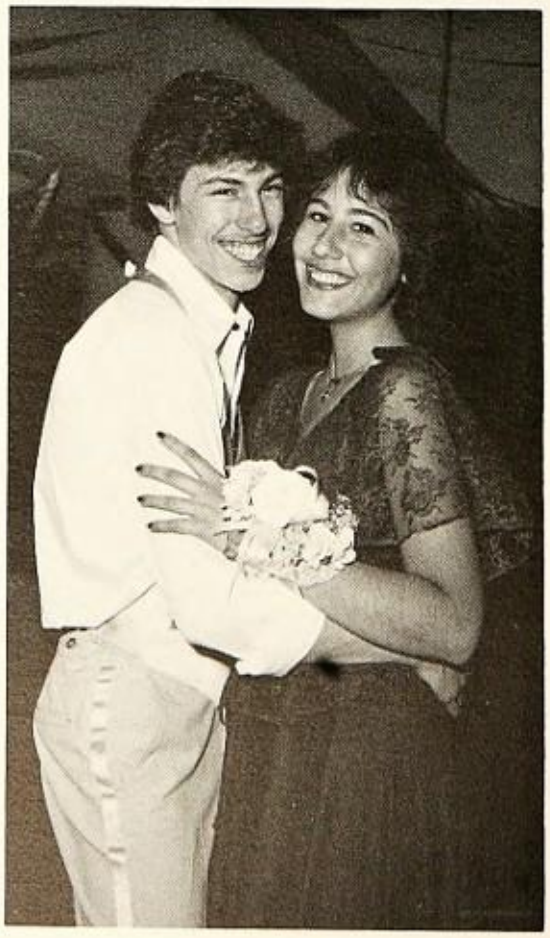


Love is in the air . . . . .



And they never thought I could dance.

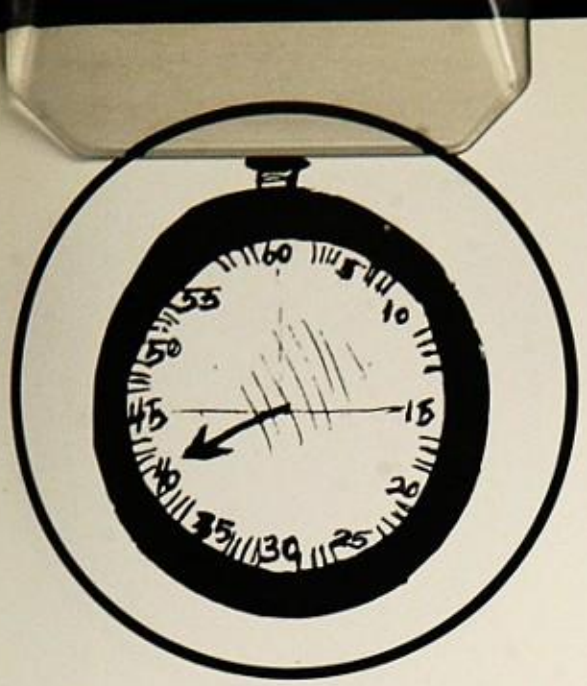
Let's do the TWIST



Think we'll always be this happy?

The atmosphere was exciting on that very special Saturday night in November 1982. Our Junior Prom, "We've Got Tonight", was an extra special event for all who attended. The atmosphere was that of a crisp winter's night with a ceiling covered with dazzling silver stars and a sparkling pool surrounded by colorful flowers. The catered event proved to be a success due to the hard work of many of the members of our class. A special thanks goes to our chairpersons Charlene Witkoski and Lina Cotugno.

I wish we could do this every day!



PROM

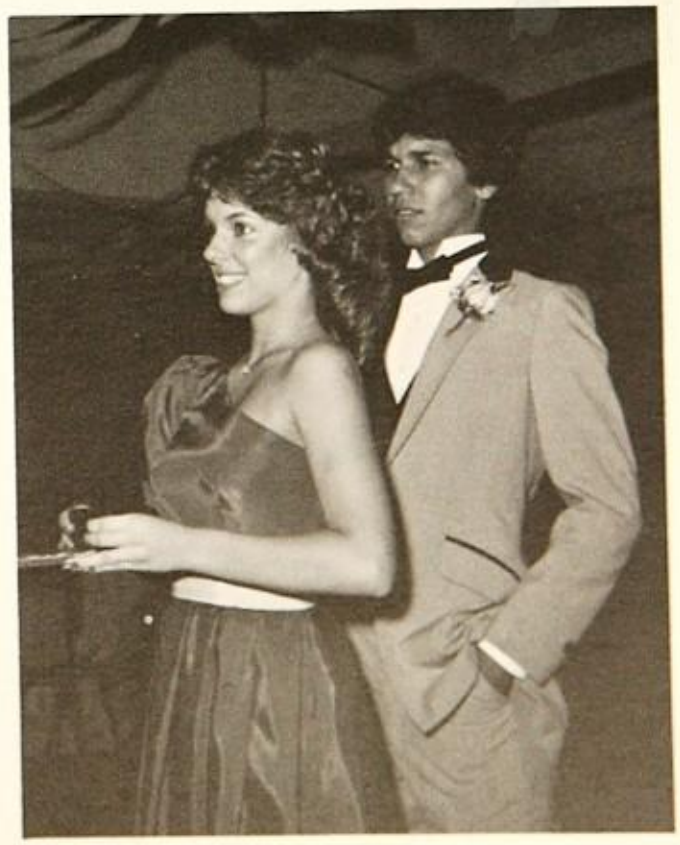
Sooner or later we'll have to dance . . .

. Come on now . . . it's Prom Time!

Aw, did we hurt your feelings?

I hope I can outlast him!

I hope they'll let us out of here!



Think she'll ever look me in the eyes?

JUNIOR

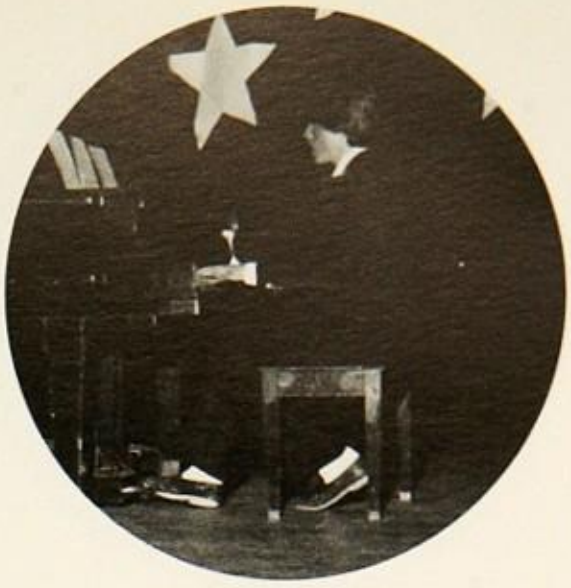
We'd make good roaring twentiers!

Our Junior Show, "Friday Knight Live", was the most exciting and funfilled night of all our nights together at S.H.S. The hours of rehearsal were long and tiring, but they helped to bring our class closer than we ever had been. There was magic in the air on that Friday night in April 1982 as the curtain opened. We had the best time as we all walked across the stage in our twenties costumes. The night overflowed with our Junior Spirit as we all pulled together to entertain. The abundance of our talent came across to the audience and it was a night that we will forever treasure in our memories.

Step aside Ms. Streisand ....

GINSU .....

Couple number one, What's your favorite dessert?



SHOW

Give me that microphone!

This is so divine.

Out here on our own ....

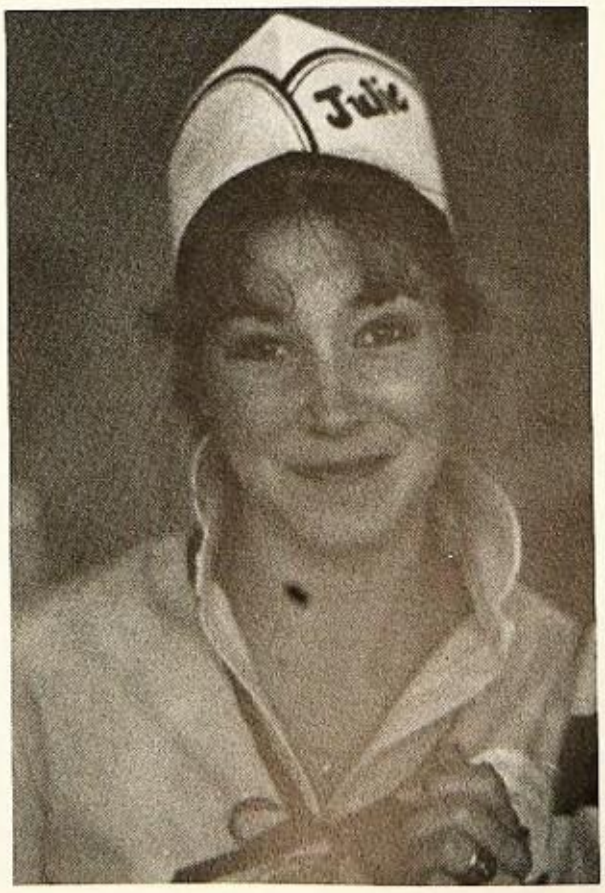
Come on down ....

SPAGHETTI SUPPER

We need a break from the life of waitressing .....

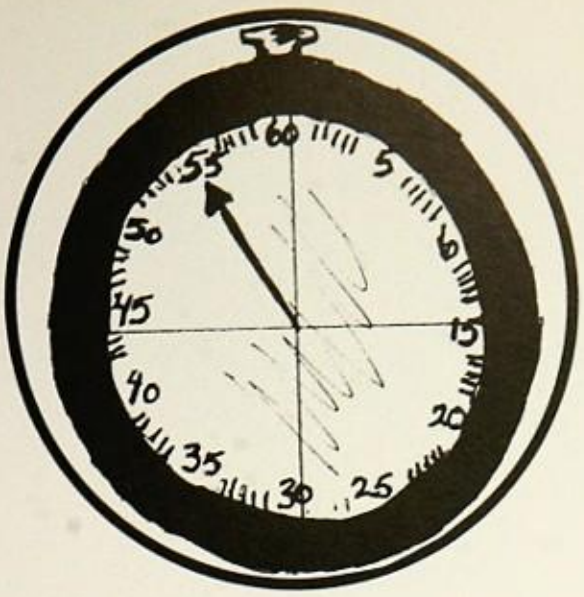
On Wednesday night, October 6th, our class held its Spaghetti Supper co-chaired by Mike Lorenzo and Kathy Chubet. The chefs, waiters, and the waitresses worked hard to cater to a large and very hungry crowd. No one will ever forget how we were bombarded by the football team who demanded to be served immediately. When we heard the words "No More Spaghetti!" and saw the looks on the football player's faces, we could only laugh because it was one more event which made our class the great class that it is. But, that wasn't quite the end of the catastrophe. Mrs. Oshana was dragged into it when she was showered with whip cream. We can only smile as we look back and remember all the incidents which made our Spaghetti Supper a great success.

Refill anyone?



Have a sundae and a smile!

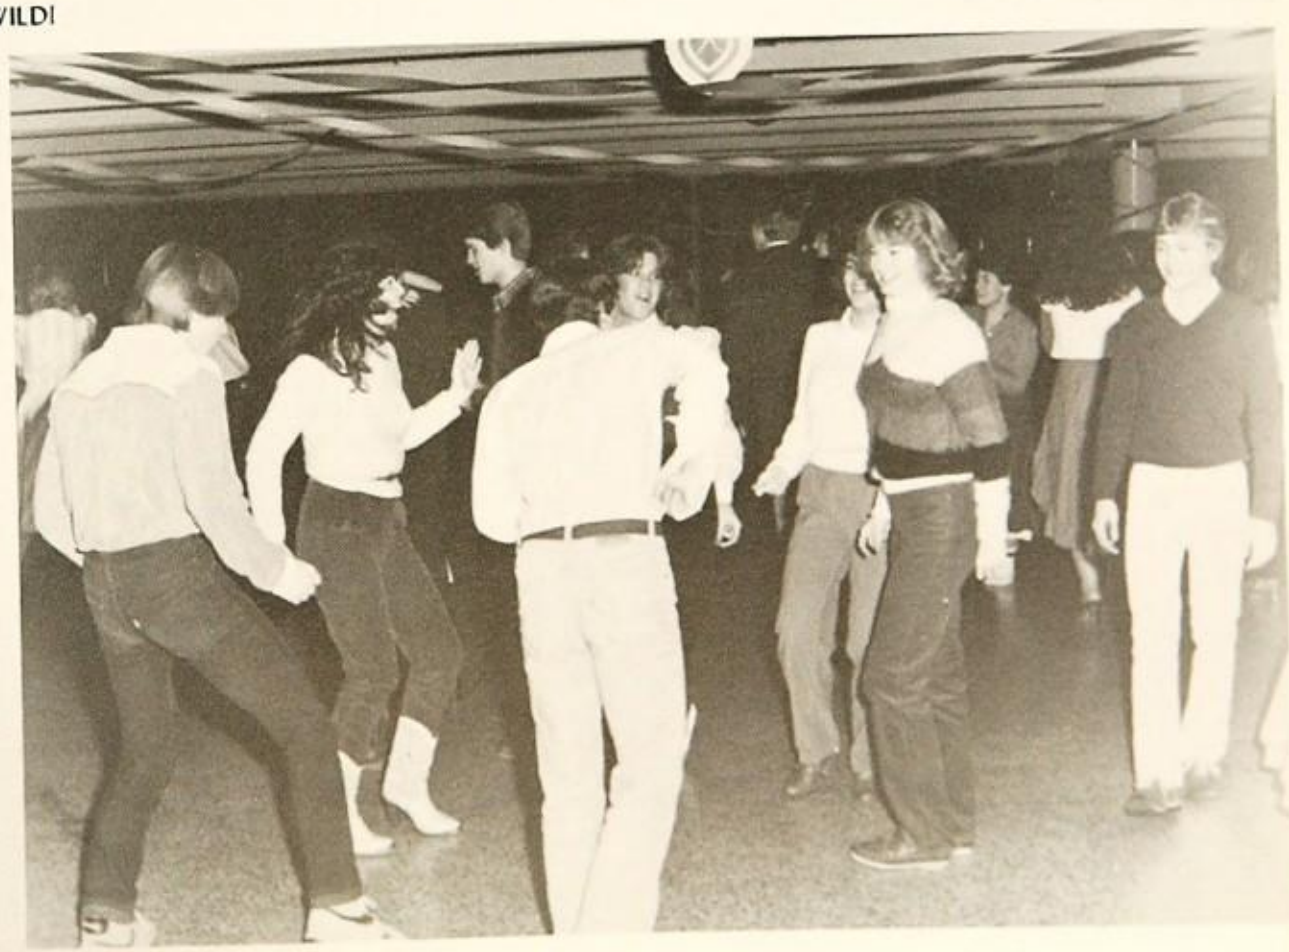
Don't tell me they ran out of spaghetti .....



DANCES

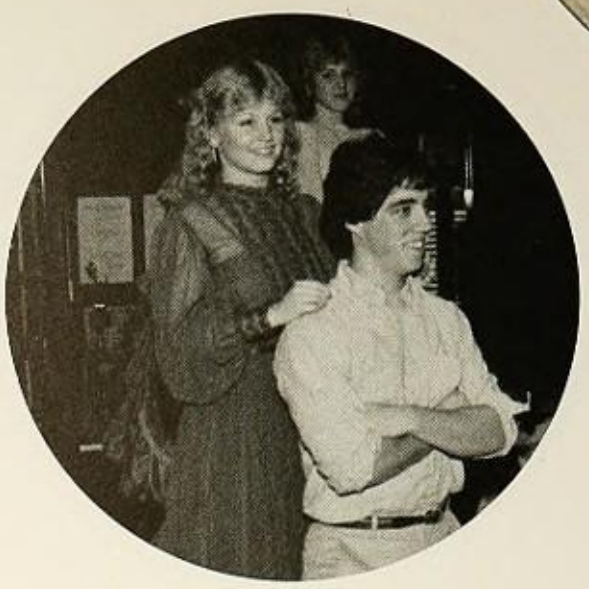
Throughout our years at S.H.S., the Class of '84 held dances on selected Friday evenings in the cafeteria. The hard work put into the dances was well worth the end profit. Those who sold tickets and decorated know the real effort and determination that goes into sponsoring a dance. Our Valentine's Day Dance is one we will never forget; not only were we dancing our hearts away in the middle of a blizzard, but we also made one of the biggest profits we have had at a dance. Everyone who attends has the best time because the Class of '84 gets everyone out on the dance floor!

Born to be WILD!



Check us out!!!

Oh! This is a dance



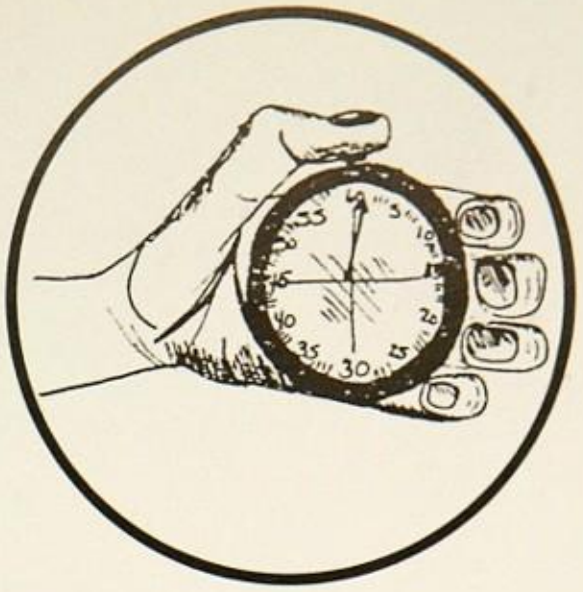
HOME

One big, happy family . . .

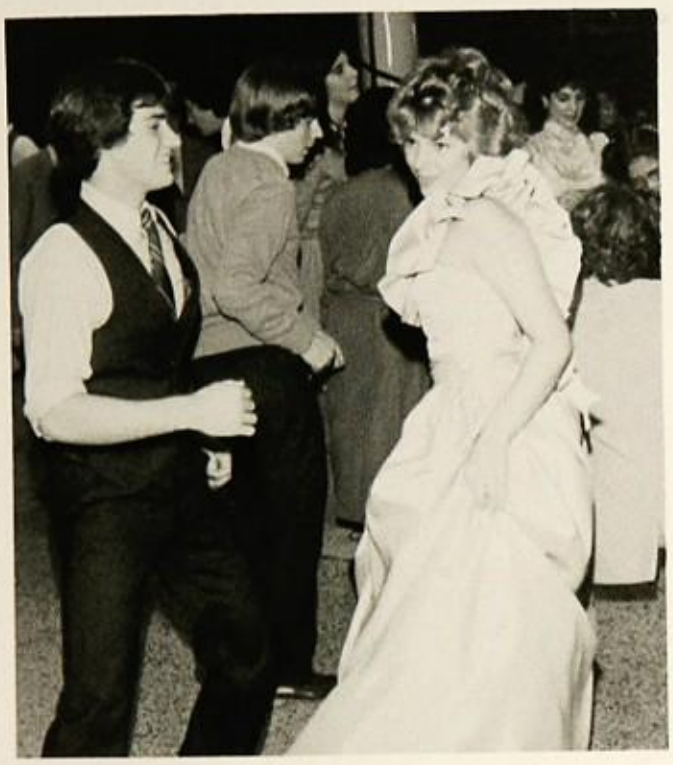
On a crisp Friday night, November 25, 1983, the Class of '84 held its Homecoming-Victory Dance. Seniors, Juniors, and Sophomores joined in on the fun. We all witnessed the crowning of our queen, Elizabeth Braun. The Homecoming Court consisted of: Lisa Doubleday and Kim Waznik as sophomore attendants, Stacey Lowery and Tammy Mankus as junior attendants, and Julie Anderson, Kirsten Anderson, Simonne Donahue, and Karen Sperlazza as senior attendants. Our Homecoming celebration was capped off nicely with a Blue Knight victory over Plainville.

Here's Liz, boogying to the crazy chicken.

But Julie, I don't want to smile.



COMING



Let's dance the night away!

A lean a lean a lean a lean . . .

If my friends could see me now . . .

C'mon now, I'm just getting into this!!

Stand by your man?

IN MEMORY OF

JOE SUTKATSKI

Someone we love has been taken away, tears fill our eyes and our minds go astray.

Don't know what to do now that he is gone, just try to love one another and together be strong.

It's hard to believe he's not here. We try to accept it but, he seems so near.

It doesn't seem fair that he has gone, why did it happen? It just seems so wrong.

Such a beautiful person, so gentle and kind, his beautiful being will always be in our minds.

Memories we have,

Memories we share an in our hearts Joe will always be there . . . .

by Kelly Bryant

A TRIBUTE TO SHAWN:

A Lost Friend

Little hands now at rest;
Folded peacefully upon his chest.
Lips that could no longer call my name;
Were curved in a gentle smile still the same.
The beach and the parks, I remember them yet;
These are the times I will never forget.
He was always there as I knew he'd be;
Putting things aside especially for me.
The terrible day came when Shawn became ill;
It was an awful thing, I remember it still.
"Give me a chance to show him my love."
God heard my plea up in heaven above.
His family cared for him night and day,
Showing him love in their own special way.
Some time passed by, I thought he had won;
He was getting stronger with each passing one.
Then suddenly he was gone one day,
God's angels came and took him away.
Now I feel sad that my little buddy isn't here;
But for some unknown reason, I can't shed a tear.
And though he was taken when his life had just begun;
I am thankful to God, because I know Shawn won.
I close my eyes and he's still with me;
I thank God that he will always be.

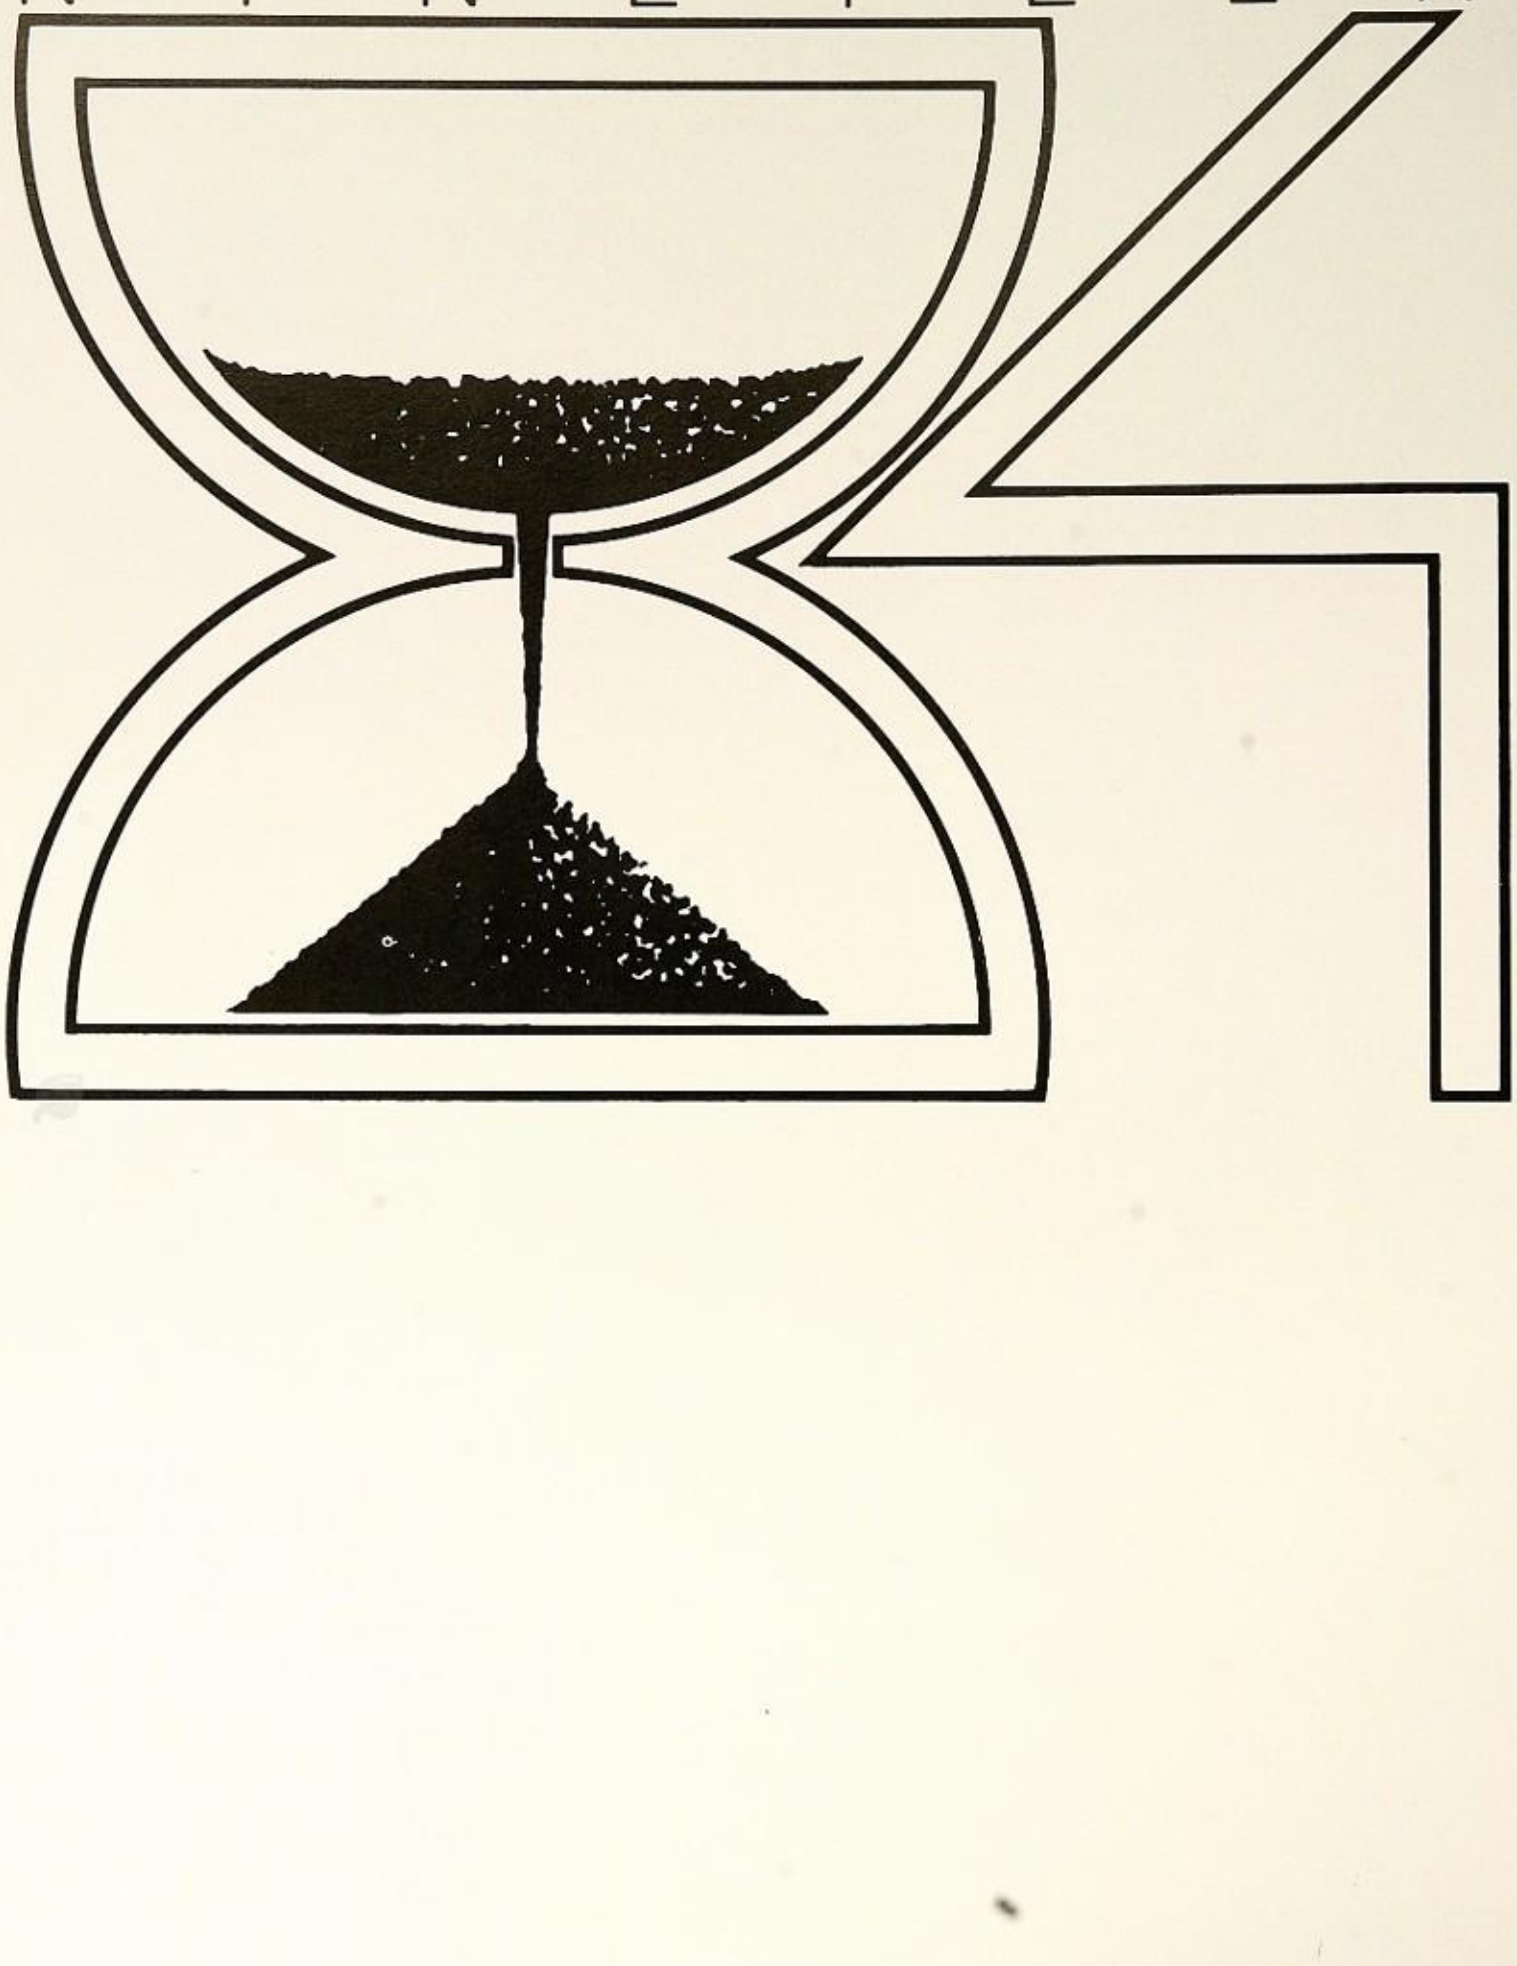
JUNIORS

NINETEEN



A TIME FOR LEADERSHIP . . .

The class of "85" is especially lucky to have Miss Turner and Mr. Garry as its advisers. Mr. Garry, who took over this year from Mr. Stranieri, and Miss Turner are both enthusiastic and willing to put in their own time and effort to make our class the best it can be.

We were also fortunate to have elected seven capable officers for the 1983-9184 year; President, Rhonda Sargis; Vice-President, Tina Palumbo; Assistant Vice-President, Jackie Naranjo; Secretaries, Shelly Martelli and Karen Polak; Treasurers, Stacey Lowery and Staci Thompson.

According to Rhonda, "Being a junior is very special. Activities such as the Junior Prom, Junior Show, and our original class of "85" Carnival bring every SHS junior close together."

"Just you and me kid."

Our junior class officers

Would you buy a used car from this man?

Act now and you, too, can be the proud owner of these prizes

Have you ever seen these people before?

Adopt a teacher, they're playful . . .

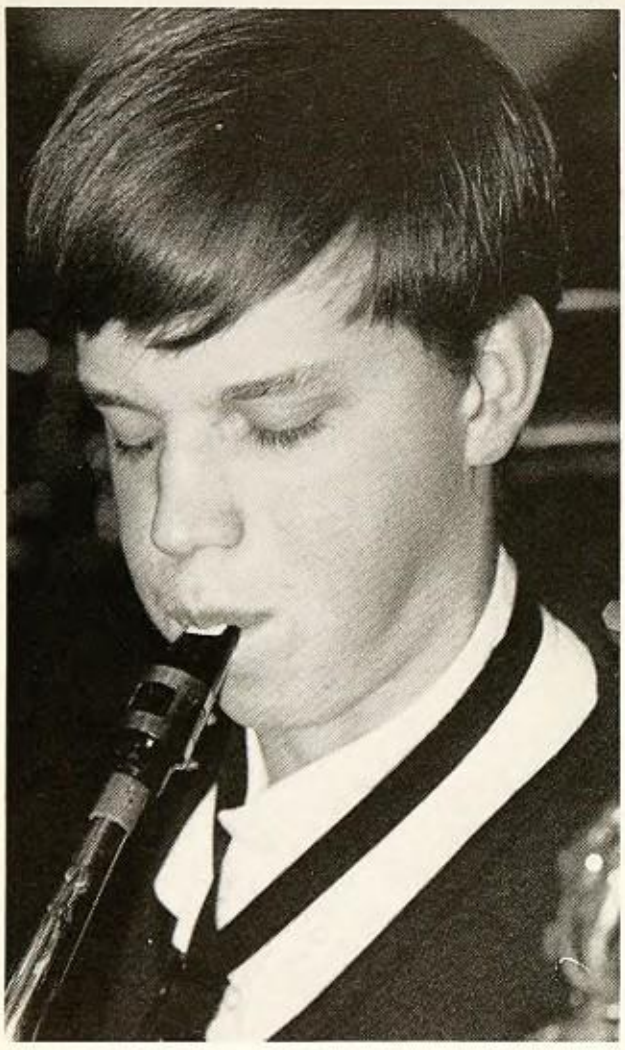
cute . . .

flirtatious . . .

and fun loving!

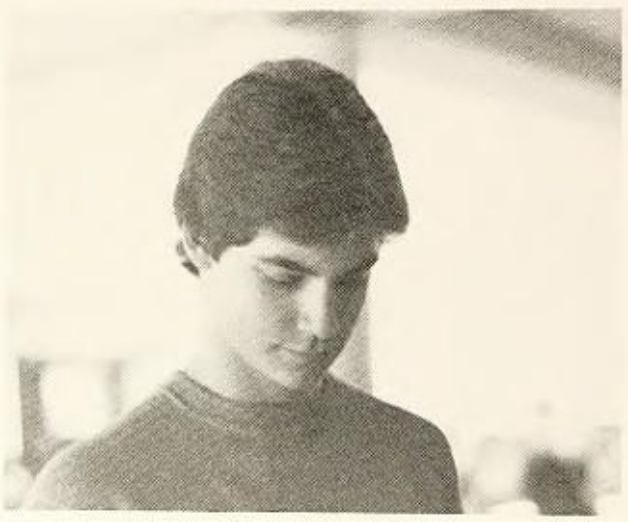
A TIME TO BE SERIOUS

Junior year is notorious for its reputation as the hardest academic year of high school. Juniors are faced with extremely difficult courses including chemistry, math, and advanced foreign languages, especially since many students take a heavy schedule to avoid a panic in senior year. In the fall, some chose to take P.S.A.T.'s, or Preliminary Scholastic Aptitude Tests. In the spring, even more elected to take S.A.T.'s. in order to be able to take them again, hopefully with an improved score! Throughout the difficult times during the year, juniors could take consolation in the fact that if former juniors made it, than the class of 1985 could, too.



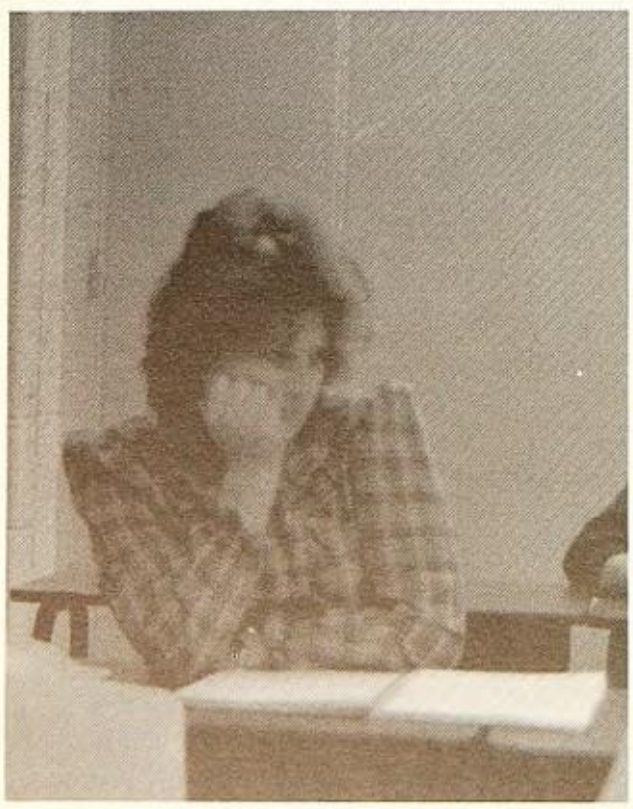
The music man

Honest, I didn't do it



Don't take my picture, please

Turn it down



Is it 2:05 yet?

Boy is he gorgeous!

Turn the mike up

Some people really do study in the cafeteria

That's not the answer I have

Well excuse me, I didn't have time for lunch

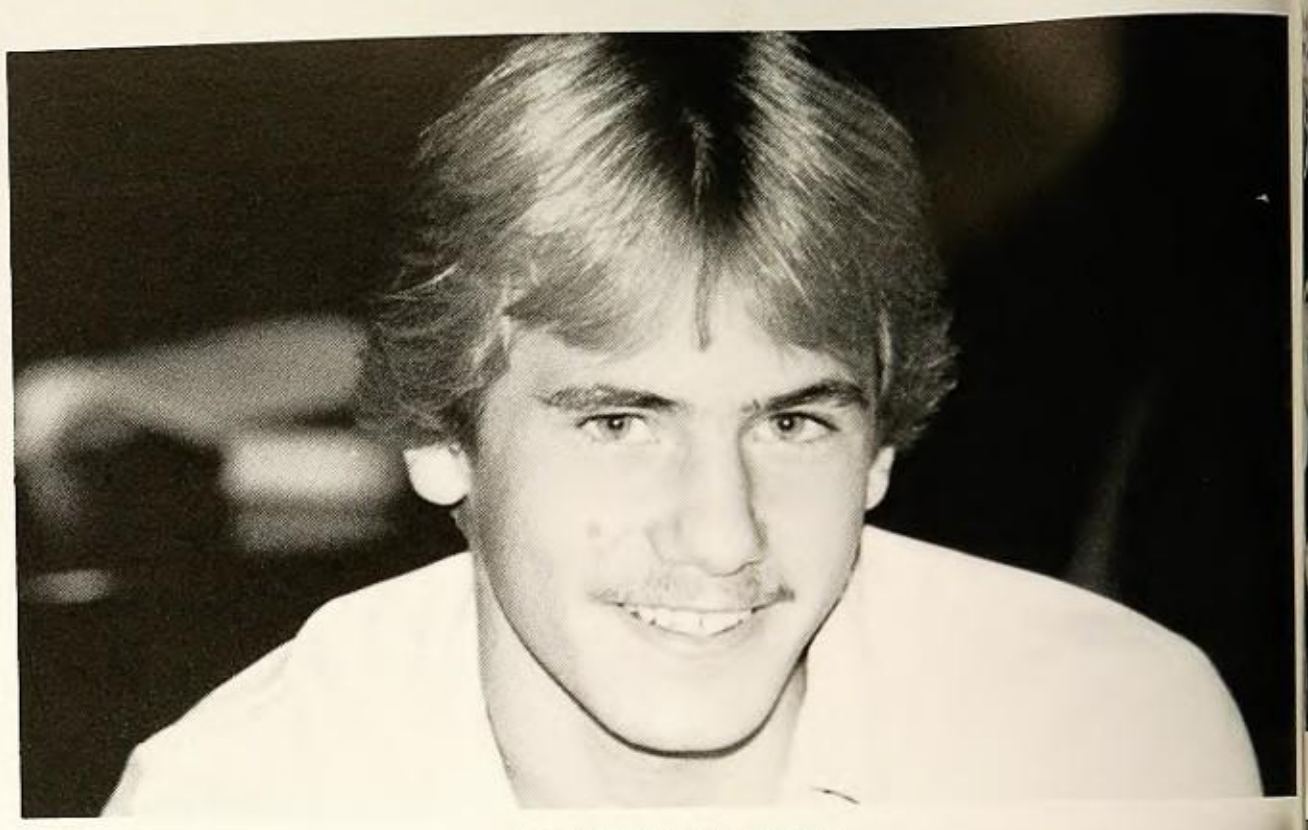
"Oh yeah! Well my mom said . . .

Mike forgot his Wheaties this morning

A TIME TO HAVE FUN . . .

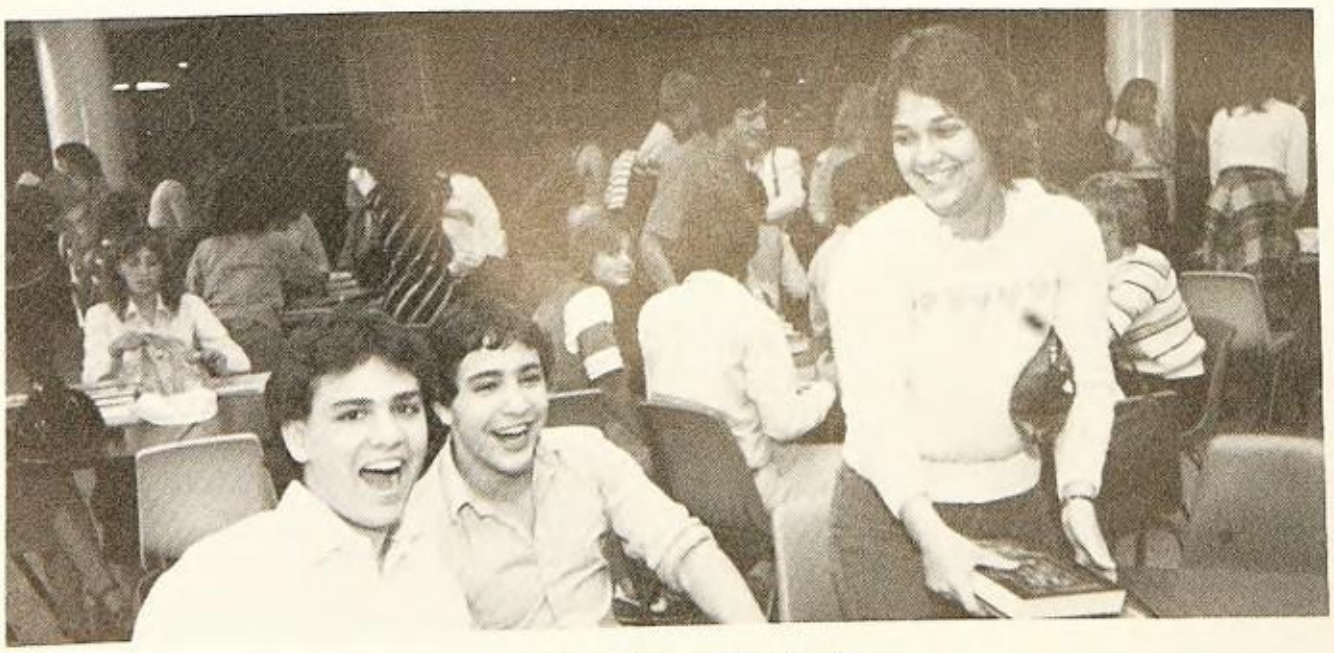
Junior year was also a rewarding time in our lives. Free from the nervousness of sophomores and the mounting pressures of seniors, juniors are in an enviable position. Whether on a sport, in the band, a cheerleader, or part of an enthusiastic crowd, the class of 1985 got involved. There were activities and good times for all, including the prom and junior show as well as football and basketball games, dances, car washes and concerts. As we look back upon our junior year, we should have memories of hard work as well as good times. After all, that's what high school is all about.

Look up here Dawn



Here's looking at you kid

That face, that cover girl face



Pretty funny guys, huh?!

It's Count Dracula

Juniors get psyched at pep rally

"Look, Ma, No cavities!"

"How many girls?!"

"Please . . . "

Loveable Quartet

A TIME TO REMEMBER . . .

For couples at the Junior Prom, November 12, 1983, will always be a time to remember. The dance, Never Gonna Let You Go, took place on a clear, chilly evening in the cafeteria, which had been transformed into a magical place.

Prom chairpersons Liz Minch and Jill Cianciola could not have done a better job. The decorations were a beautiful combination of pink, maroon, and white, and included an unusual ice sculpture. Many were enthusiastic about the music of Artistry, a "great band" with two exceptional vocalists. When the evening was over, all could go home with memories to treasure.

Happy couple #1

Lovely to look at, delightful to hold, but if you should break it consider it sold.

How long do we have to hold this position?

You can dress him up but you can't take him anywhere.

Pretty impressive now!

Oh no, I lost my earring!

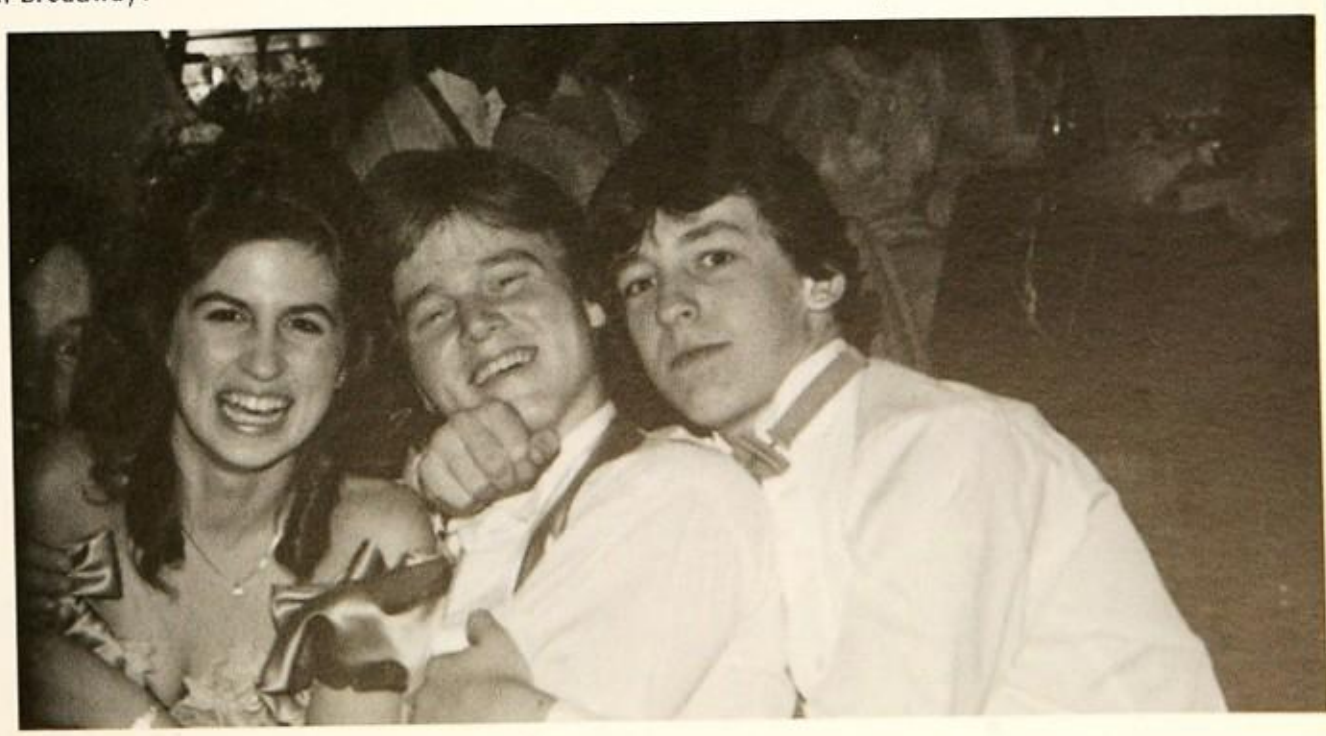
I'm the one.

hmm . . .

What do you think, Broadway?

What do you mean this is a costume ball?

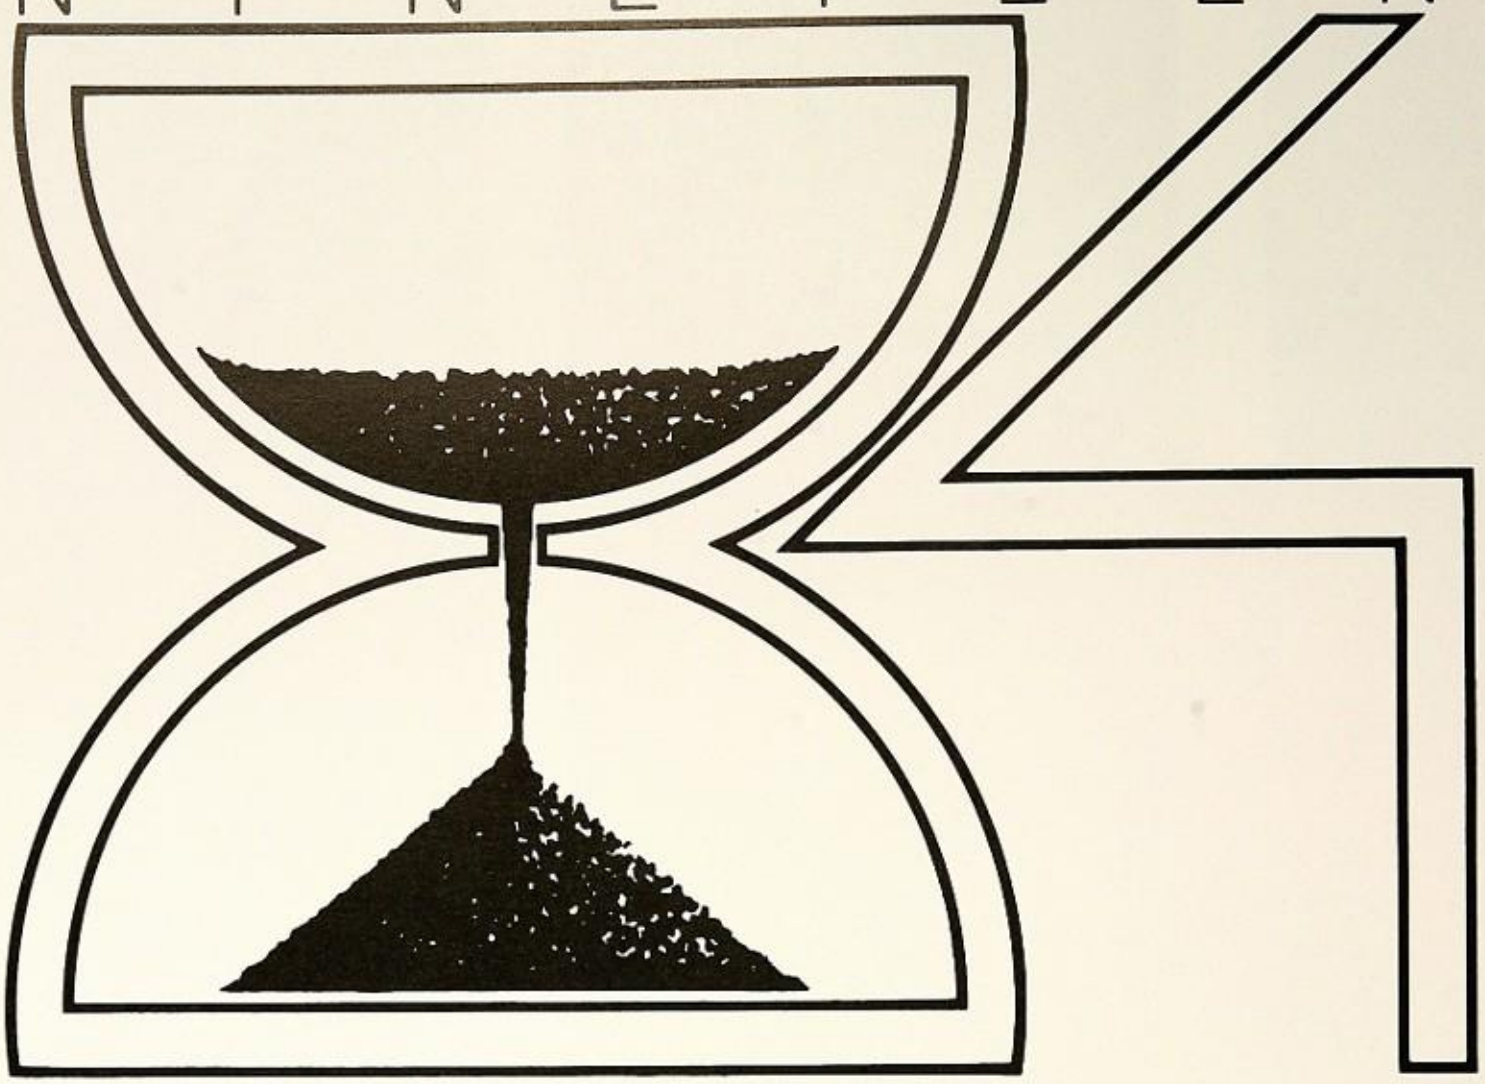
You wouldn't believe what he just said.



I saw him first!

SOPHOMORES

NINETEEN



Smile Miss Dowler . . .

. . . That's better!

Hi, my name is Kerry Andrews, and I'm your sophomore class president.

No, these girls are not included in the prizes you can receive!

IT WAS A TIME FOR DIRECTION . . .

and the class of 1986 looked to Mr. Feeney and Miss Dowler for assistance and leadership. These two dedicated and hard-working advisors brought together a large body of sophomore students to form a unified and well organized class with an abundance of zeal. "The kids are really super this year and very enthusiastic!" says Miss Dowler. Although this is only her first year being an advisor, Miss Dowler finds it quite enjoyable. Mr. Feeney, also new in this position, finds it very rewarding. The student officers responsible for running the class are; Kerry Andrews - President, Carol Toffolon - Vice-President, Colleen Callahan - Secretary, and Jill Pelrin - Treasurer. Elected by the student body, these young ladies exhibit leadership qualities which enable them to invoke school spirit among their classmates. Coming from a variety of junior high schools, they have now come to work well together for the betterment of the S.H.S. sophomore class.

Now, you two, get your act together!

Wake me up at 2:05!

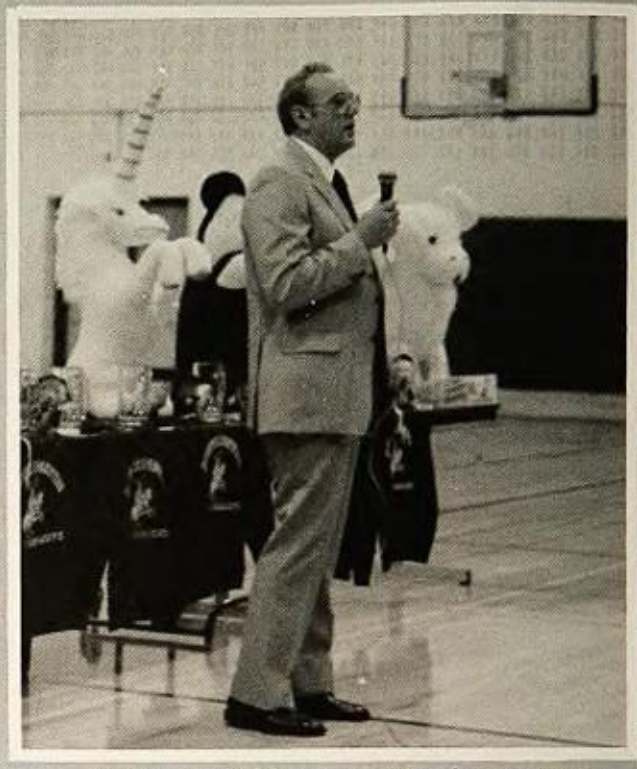
What a team!

The four Musketeers!

FUNDRAISER TIME!

. . . and what a time it was! The sophomore class worked diligently as a whole at the Magazine Drive which was the major fundraiser of the year for the class of '86. The hard work payed off, and in big numbers! Breaking last year's total by $3,000, the class of 1986 reached the awesome total of $28,009 setting a new record. Congratulations!

Life as a model is extremely trying!



Attention babies, I mean sophomores.

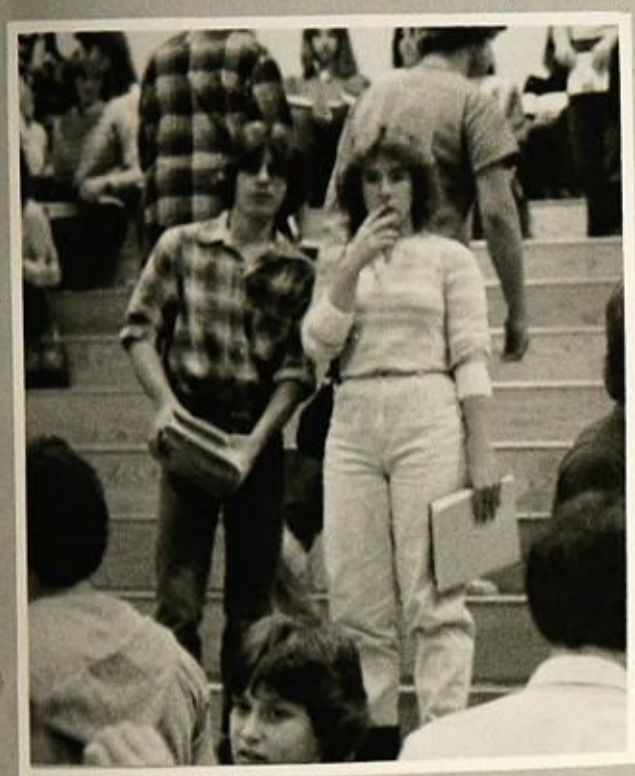
I know that our class can raise a lot of money!

Please let me have a turn speaking!

Smile, you're on Candid Camera!

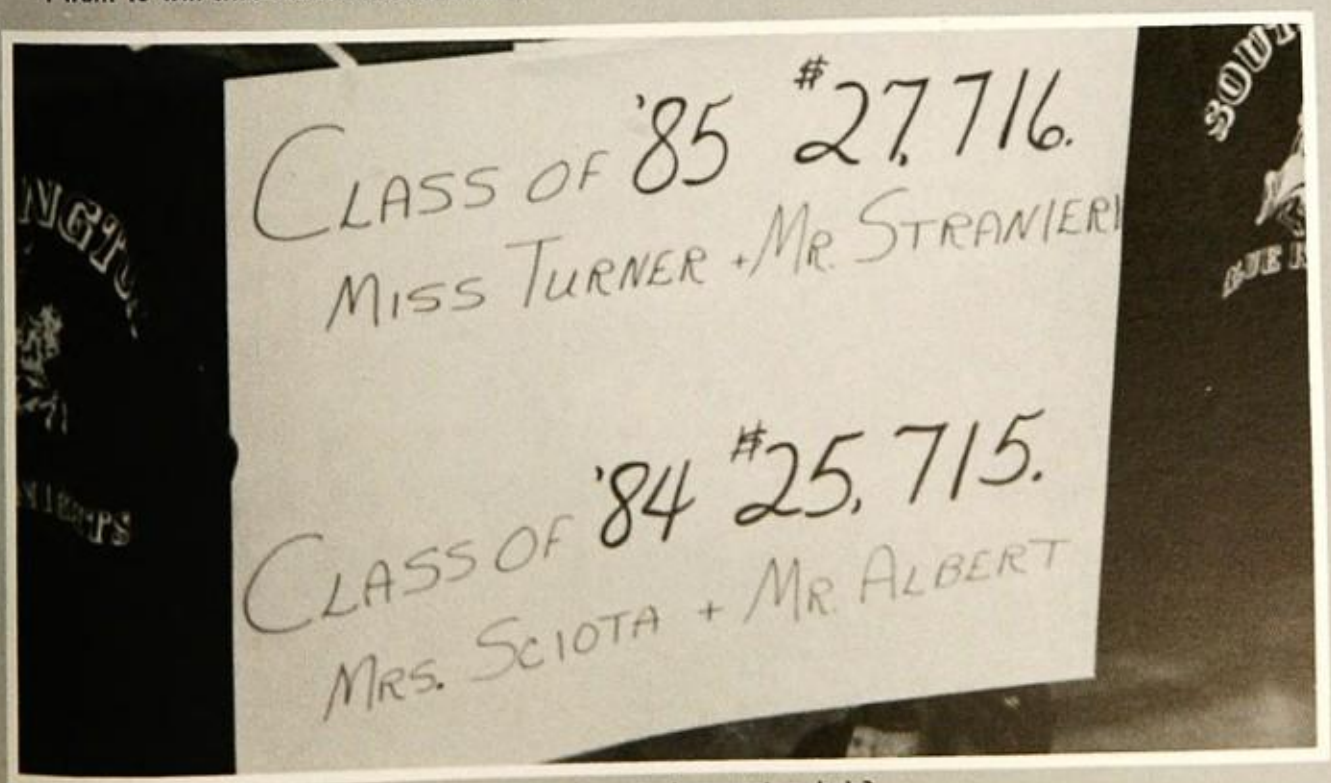
Boy, are we enthusiastic!

Someone take me home- please!



I want to win that raccoon down there!

Alright everyone, find a seat!



The stats . . . pretty impressive, huh?

Going once . . . Going twice . . .

Go to it, Tina!

Say cheese!

The wrestling team, warming up for the next match!

Raise your hands if you're SURE!

Someone's got to do it!

I won't fall asleep if you won't!

Smile pretty!

WHAT A TIME!

Sophomores, the ultimate subjects when taking candid pictures! These fun-loving, ignorant, serious, comical, and confused expressions characterize the sophomore in every aspect. Noisy study periods in the cafe, boring assemblies in the gym, the silence during homeroom, and the fun and amusement at the Home-Coming dance are but a few of the times shown on these pages. Here are the pictures showing the fun side of school-the good times shared with friends.

Together forever forever together!

Two-timing man!

Did I forget to do my homework again?

Honest, we're just friends!

I can't wait for graduation!

Yeah, and you thought I wasn't a good skiier!

The 1984 Chronicle is this year's yearbook. A staff of twelve devoted editors, seniors and juniors, spent most of their 1983-84 school year thinking of ideas, taking pictures, writing copy, and drawing layouts. The production of a yearbook is a sometimes seemingly insurmountable task which takes a great deal of work to complete. Yet amidst all the work and aggravation is a great deal of fun and friendship --- and the final product makes it all worthwhile.

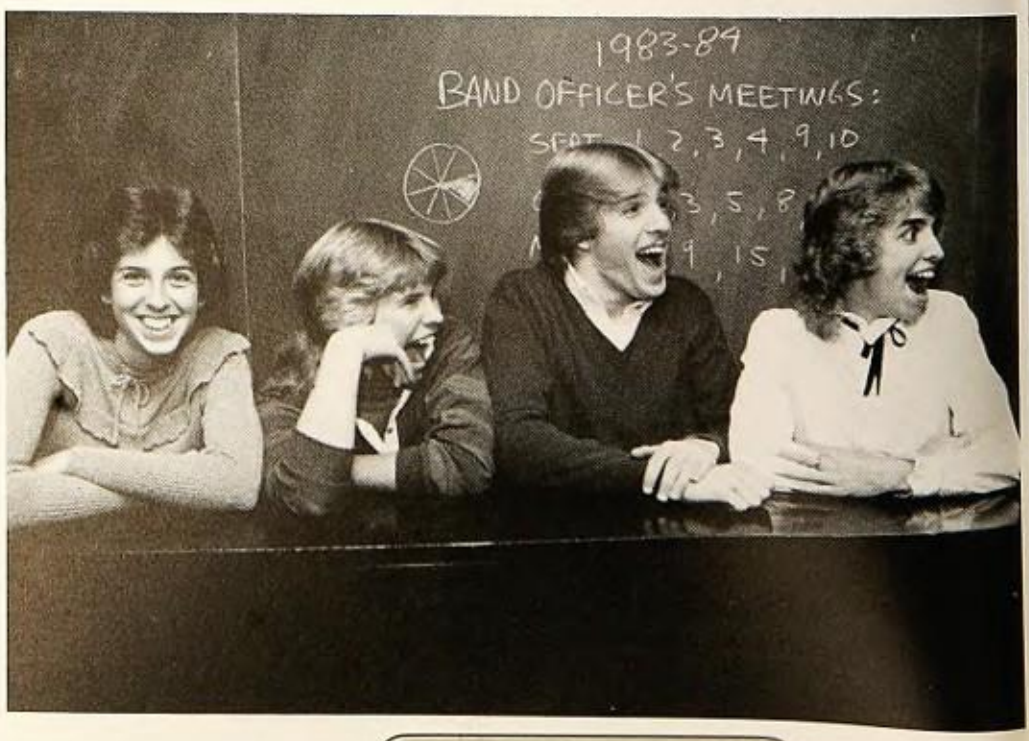
Concert Band and Stage Band gave brilliant performances at the Christmas Concert and the Winter Pops Concert. In addition, the Stage Band performed at the Hart Jazz Festival. A highlight of the 1983-84 Band season was a four day trip to Delaware for an exchange concert, and New Jersey and Philadelphia for competition.



The Vocal Music Department consists of a mixed chorus, Concert Choir, and Barber Shop. Students involved in these groups hold practices during one school period and perform at various functions including the Christmas Concert and Assembly.

Although S.H.S. had a Future Teachers of America Club several years ago, this organization is relatively new to the school. F.T.A. consists of a group of students who are interested in pursuing a career in education. Several of the club's annual activities include a social for interested teachers and students, an induction of new officers, and visits to various colleges that offer teaching programs. Members of F.T.A. are also available for tutoring.

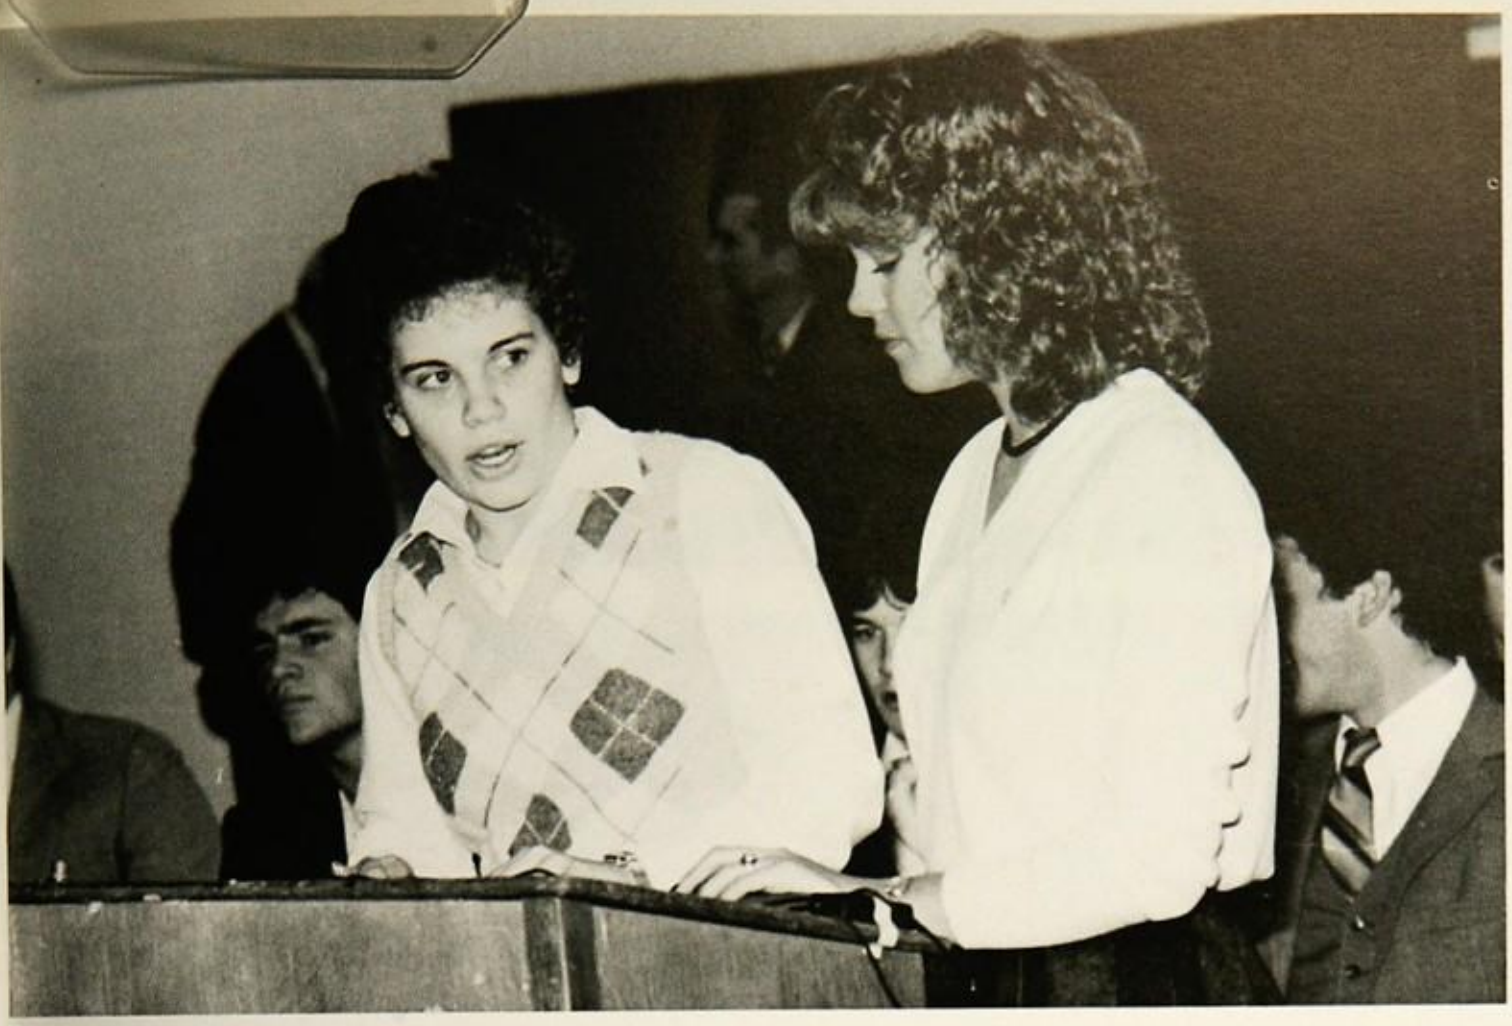
FBLA



F.B.L.A., or Future Business Leaders of America, is a national, vocational organization composed of students who, for the most part, wish to learn and grow in many ways. A large part of growing is communicating with others, making new friends, and getting involved. We planned a busy schedule for 1984 including working with The March of Dimes and the business community promoting F.B.L.A. week in February, and participating in district, state, and national conferences. This year, being our 25th Anniversary, was one of the best years ever.

The Italian Club was started at S.H.S. to aid students in learning more about Italian culture. The Italian Club has participated in many activities. We performed in an Italian show held at Phil's Restaurant and were winners of Language Day held at S.H.S. We also sold jewelry to raise money. We have taken memorable trips to Hatrford and New York to see the Vatican Exhibit. The Italian Club has grown together in the past year to become a proud and successful organization.

The Student Council serves many purposes in the school. Our main purpose, however, is to represent the Student Body, and promote the various activities undertaken by student organizations. To achieve these tasks, the Student Relations Committee and the Public Relations Committee maintain suggestion boxes for use by students to offer complaints, suggestions, and criticisms about any aspect of the school, and brings these to the attention of the School Administration. The Public Relations Committee assists by publicizing the events held by the Council for the student Body. The council currently sponsors two large events --- the annual Thanksgiving Food Drive, and Youth Honor Day in the town of Southington.

We looked forward to the induction of new members in the Spring and to the end of an eventful year.

DECA

DECA --- the Distributive Education Club of America, is an organization for those students enrolled in Distributive Education courses. D.E. is a program of instruction which teaches marketing, merchandising, and management. DECA students operate the School Store. In the 1983-84 school year DECA students were visited by representatives of the Harbor Bar Company as well as working in Bradlees Department Store for a day. Taking educational field trips to New York was also one of the various activities in which DECA takes part.

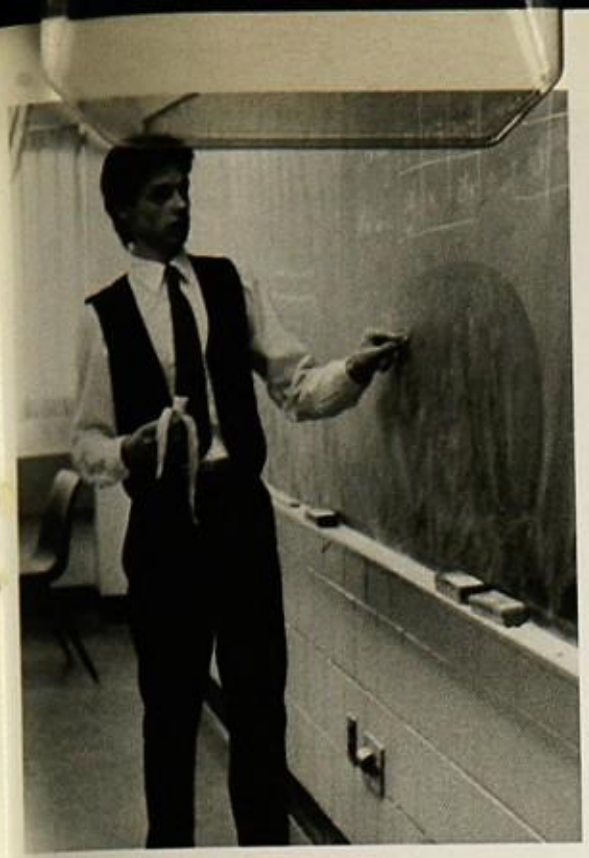
The Emblem, S.H.S. newsmagazine, is published eight times a year to inform the students and teachers of the happenings in our school. Also included is literary, columns, photographs, and art work, specially designed to enlighten each issue. Each March, the editors attend a conference at Columbia University in New York to further educate themselves with ideas to use in the newsmagazine. Because the Emblem is self-supporting, we depend on our advertisers, and subscription and newsstand buyers to keep the paper in circulation.



The Math Club gives those students with a special interest in Mathematics to compete, once a month, in Math Meets with other high schools. These meets consist of rounds of challenging questions in which two or more teams compete to answer.

Perfect posture, Rose.

VOLLEYBALL

O.K. girls, their shortest player is 6'6".

It's one of those Knights.

This year's team worked very hard to make up for the talent lost from last year. This was the toughest schedule for the Volleyball team ever to play, and I think that next year's team will be more acquainted with the best teams. Knowing that there is much better talent out there; will make the team more aware of how they should play. It's been great and I'll never forget it.

Left face, left.

I'll sign autographs in a minute.

Mr. Berry's dedication has been a major factor in the success of our band this past year. He has as much enthusiasm as we ourselves in the band do. He shows it in the long practices he has given us. It has paid off extremely well with all of the awards and honors we have received. What I really want to say is, "Thank-you for all you've done!"

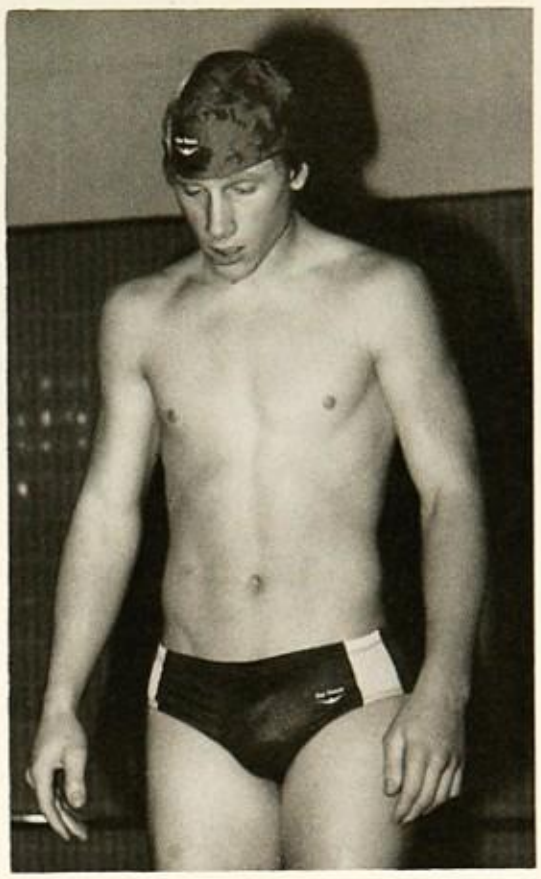
BOY'S SWIMMING

What a dive!

The swim team did exceptionally well this year, beating last years no-win record. Our new coach and a great number of new swimmers provided the necessary essentials for a small team. Coach Bolin provided us with the necessary encouragement and training to improve our record. We had a great season!

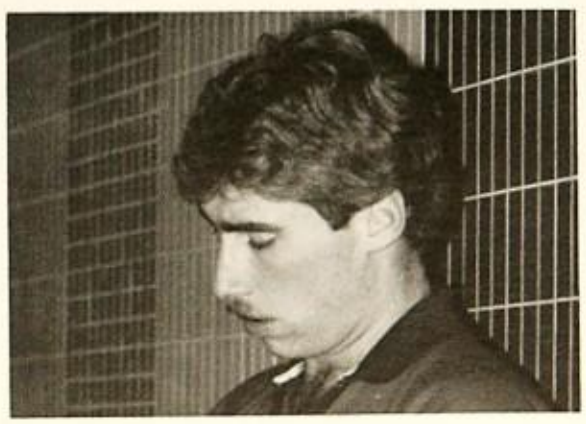
-Tom Langdon

Let me help you; buddy.

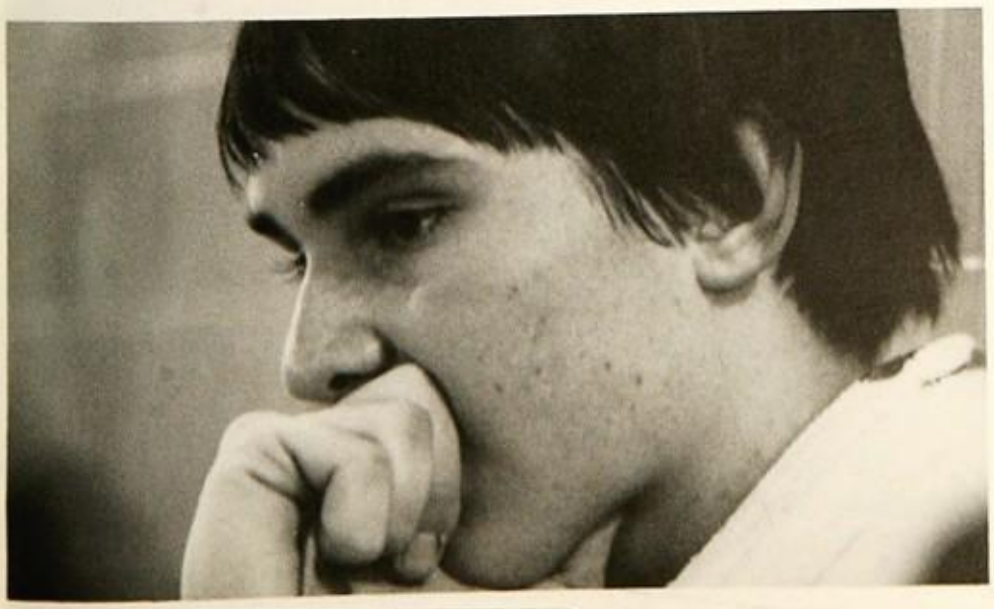


It's a long way down!

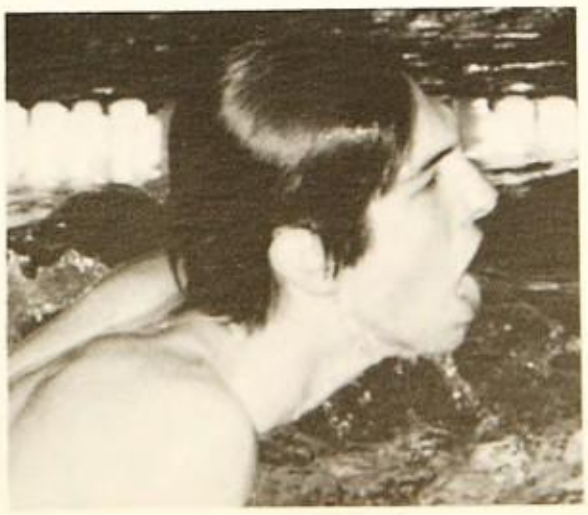
Wow! I can see myself!



Coach Bolin.



I have so much homework to do!



You take my breath away.

There is no friend like an old friend
Who has shared our morning days
No greeting like his welcome
No homage like his praise
Fame is the scentless flower
With gaudy crown of gold;
But friendship is the breathing rose
With seeds in every fold.

We're passing it on to Southington

at Southington Savings Bank

We're excited - excited because of what we see around us. The growth in Southington that's come partially as a result from our passing on your savings in the form of loans. There's no doubt that we as a country have been on a rocky road of late. A road which has been closed to some who would buy their first home because of high interest rates. But the road blocks are disappearing. We at Southington Savings Bank sense a turnaround of public spirit and a positive attitude towards where we're going.

Here in Southington we have a lot to be thankful for. We have good schools, hospitals, churches, shops and shopkeepers, tireless volunteers working for a paycheck of satisfaction and self accomplishment and unsung heroes around every Southington street corner. They're your neighbors, your family, your friends.

These are the people that are "passing it on". Passing on the Southington spirit of community. And we're proud - no we're "Southington proud" of having been a part of it since 1860...being there when you need us. But we're not so bold as to say that it's only us that have helped you. You've helped us by placing your faith (and your hard-earned cash) in our bank!

Whether you know it or not, your account helps us to keep passing on valuable financial resources to the community, making all of us stronger for it.

The role of a home town bank has been an important one throughout America's history. It's meant that some communities have forged ahead because of deep seated mutual beliefs in each other.

We're comfortable with that role and we're committed to playing it for a long time to come. So, if you like the idea of helping one another, why not open an account with us today. And pass it on.

It was the best of times,
it was the worst of times,
it was the age of wisdom,
it was the age of foolishness,
it was the epoch of belief,
it was the epoch of incredulity,
it was the season of Light,
it was the season of Darkness,
it was the spring of hope,
it was the winter of despair,
we had everything before us . . .
Charles Dickens
